Information and Communication Technology for Competitive Strategies (ICTCS 2021)

2022-06-09

this book contains best selected research papers presented at ictcs 2021 sixth international conference on information and communication technology for competitive strategies the conference will be held at jaipur rajasthan india during december 17 18 2021 the book covers state of the art as well as emerging topics pertaining to ict and effective strategies for its implementation for engineering and managerial applications this book contains papers mainly focused on ict for computation algorithms and data analytics and it security the book is presented in two volumes

ICT Analysis and Applications

2020-12-15

this book proposes new technologies and discusses future solutions for ict design infrastructures as reflected in high quality papers presented at the 5th international conference on ict for sustainable development ict4sd 2020 held in goa india on 23 24 july 2020 the conference provided a valuable forum for cutting edge research discussions among pioneering researchers scientists industrial engineers and students from all around the world bringing together experts from different countries the book explores a range of central issues from an international perspective

ICT Analysis and Applications

2021

this book proposes new technologies and discusses future solutions for ict design infrastructures as reflected in high quality papers presented at the 5th international conference on ict for sustainable development ict4sd 2020 held in goa india on 23 24 july 2020 the conference provided a valuable forum for cutting edge research discussions among pioneering researchers scientists industrial engineers and students from all around the world bringing together experts from different countries the book explores a range of central issues from an international perspective

Information and Communication Technology for Competitive Strategies (ICTCS 2021)

2022-06-22

this book contains best selected research papers presented at ictcs 2021 sixth international conference on information and communication technology for competitive strategies the conference will be held at jaipur rajasthan india during december 17 18 2021 the book covers state of the art as well as emerging topics pertaining to ict and effective strategies for its implementation for engineering and managerial applications this book contains papers mainly focused on ict for computation algorithms and data analytics and it security the book is presented in two volumes

Critical Reflections on ICT and Education

2023-12-13

this book includes selected papers from the hong kong association for educational communications and technology hkaect 2023 international conference it provides readers with a collection of insightful chapters which delves into the realms of data visualization artificial intelligence ai virtual reality vr and augmented reality ar it also reflects on the dynamic shifts in online learning blended learning and self directed learning part one of the volume includes case studies and examples of the integration of advanced technologies such as data visualization generative ai and mixed reality in education part two shares experiences and observations from educators who embrace online learning blended learning and independent learning part three investigates the influences digital education has on learning teaching and society as a whole the book paves a path for thought provoking discussions on the future of education in a digitally connected world it is a vital resource for educators administrators policymakers and learners seeking to navigate and thrive in the rapidly evolving world of digital education

ICT Application in Academic Library Management

2018

ict application in academic library management focuses on how ict can be deployed in the effective management of libraries and information centres developments of ict can be seen in all walks of life and in every field of activity library and information centres are no exception to these revolutionary changes the potential opportunities of ict should be explored and utilized in the management of libraries especially in academic libraries to better cater to the information needs of the academic community they serve the seventeen papers included in this volume are in the areas of ict including library automation the digital library library consortia open repositories and open publishing and innovative library practices the included papers were contributed by the friends colleagues students and well wishers of dr t p o nasirudheen in the field of library and information science subject library information science

Locally Relevant ICT Research

2019-01-17

this book constitutes the refereed proceedings of the 10th international development informatics association conference idia 2018 held in tshwane south africa in august 2018 the 20 revised full papers presented were carefully reviewed and selected from 61 submissions the papers are organized in topical sections on ict adoption and impact mobile education e education community development design innovation and maturity data

Education for the 21st Century - Impact of ICT and Digital Resources

2006-10-11

it is a pleasure to offer you this book containing papers about ict and education from the world computer congress 2006 wcc 2006 held in santiago chile and sponsored by the international federation for information processing ifip a lot of people worked very hard to make this event happen and to produce this book the programme committee with ifip members from around the world issued a call for papers inspiring almost 80 people to submit papers posters demonstrations and workshops to the ifip tc3 technical committee on education sub conference of wcc 2006 the submitted papers were reviewed by a large group of referees to select the papers to be presented at the conference what is really amazing is that all these people freely contributed their time and effort to do all this work the tc3 sub conference of wcc 2006 has two themes informatics curricula teaching methods and best practice ictem ii and teaching and learning with ict theory policy and practice these themes represent many of the broad range of interests of the working groups of ifip tc3 two kinds of papers are included in this book full papers and short papers full papers are standard papers that are appropriate for an international conference on ict and informatics education of the 64 full paper submissions 28 44 were accepted a short paper represents work in progress opinion a proposal work with untested results or an experience report

Information and Communication Technology for Competitive Strategies (ICTCS 2020)

2021-07-26

this book contains the best selected research papers presented at ictcs 2020 fifth international conference on information and communication technology for competitive strategies the conference was held at jaipur rajasthan india during 11 12 december 2020 the book covers state of the art as well as emerging topics pertaining to ict and effective strategies for its implementation for engineering and

managerial applications this book contains papers mainly focused on ict for computation algorithms and data analytics and it security

ICT for Health, Accessibility and Wellbeing

2022-03-05

this book constitutes selected papers presented at the first international conference on ict for health accessibility and wellbeing ihaw 2021 held in larnaca cyprus in november 2021 the 12 full papers and 7 short papers were thoroughly reviewed and selected from 36 submissions one invited paper was also included in this volume the papers are organized in topical sections on active aging assistive devices and systems brain functions support and mhealth brain functions support and oncology ict and wellbeing

Selected Papers from the First International Symposium on Future ICT (Future-ICT 2019) in Conjunction with 4th International Symposium on Mobile Internet Security (MobiSec 2019)

2021-05-11

the international symposium on future ict future ict 2019 in conjunction with the 4th international symposium on mobile internet security mobisec 2019 was held on 17 19 october 2019 in taichung taiwan the symposium provided academic and industry professionals an opportunity to discuss the latest issues and progress in advancing smart applications based on future ict and its relative security the symposium aimed to publish high quality papers strictly related to the various theories and practical applications concerning advanced smart applications future ict and related communications and networks it was expected that the symposium and its publications would be a trigger for further related research and technology improvements in this field

Emerging ICT for Bridging the Future - Proceedings of the 49th Annual Convention of the Computer Society of India (CSI) Volume 1

2014-11-30

this volume contains 73 papers presented at csi 2014 emerging ict for bridging the future proceedings of the 49th annual convention of computer society of india the convention was held during 12 14 december 2014 at hyderabad telangana india this volume contains papers mainly focused on fuzzy systems image processing software engineering cyber security and digital forensic e commerce big data

cloud computing and ict applications

ICT in Education, Research, and Industrial Applications

2013-01-11

this book constitutes the refereed proceedings of the 8th international conference on ict in education research and industrial applications held in kherson ukraine in june 2012 the 14 revised full papers were carefully reviewed and selected from 70 submissions this book begins with an invited contribution presenting the substance of one of icteri 2012 invited talks the chapter deals with the issues of abstraction and verification of properties in real time java programs the rest of the volume is structured in four topical parts ict frameworks infrastructures integration and deployment formal logic and knowledge based frameworks ict based systems modeling specification and verification ict in teaching and learning

Journal of Ict Standardization

2013-07-01

objectives bring papers on de jure as well as de facto standards to the readers cover pre development including technologies with potential of becoming a standard as well as developed deployed standards publish on going work with potential of becoming a standard technology publish papers giving explanation of standardization process publish tutorial type papers giving new comers a understanding of standardization aim the aim of this journal is to publish standardized as well as related work making standards accessible to a wide public from practitioners to new comers the journal aims at publishing in depth as well as overview work including papers discussing standardization process and those helping new comers to understand how standards work scope bring up to date information regarding standardization in the field of information and communication technology ict covering all protocol layers and technologies in the field

Cross-National Information and Communication Technology Policies and Practices in Education

2009-04-01

this compendium of papers documents educational ict policies and practices in 37 countries making it a valuable resource for understanding and comparing ict related national policy developments in education we believe that this work offers a unique in depth examination of the trends within major education systems and how they have adapted to and taken advantage of the challenges and opportunities

posed by the new information and communication technologies a special feature of this edition is that it allows for interesting comparative analyses of sub groups of countries as many asian european union and former eastern european countries as well as the united states and canada among others are included in the book but it allows also for other than regional comparisons given that a number of newly industrialized countries such as brazil chile malaysia and south africa are represented in this book together with many oecd countries this book is the result of the effort and hard work of the contributing authors many of whom are the nrcs for iea sites in their respective countries special thanks must go to the norwegian royal ministry of education and research and the netherlands kennisnet ict op school foundation both of which provided generous support for the preparation and dissemination of the book to the center for information technology in education cite of the university of hong kong which assisted in the technical preparation of the manuscript and to the iea secretariat which facilitated the copyediting of the chapters we want to acknowledge especially the professional contribution of paula wagemaker who has copyedited the entire volume this copyediting work is especially critical and challenging as many of the chapters were written by authors for whom english is a foreign language we also want to express our appreciation to david robitaille chair of the iea publications and editorial committee and his committee for the critical and constructive review of the manuscript

Journal of ICT Standardization 1-3

2014-03

objectives bring papers on de jure as well as de facto standards to the readers cover pre development including technologies with potential of becoming a standard as well as developed deployed standards publish on going work with potential of becoming a standard technology publish papers giving explanation of standardization process publish tutorial type papers giving new comers a understanding of standardization aim the aim of this journal is to publish standardized as well as related work making standards accessible to a wide public from practitioners to new comers the journal aims at publishing in depth as well as overview work including papers discussing standardization process and those helping new comers to understand how standards work scope bring up to date information regarding standardization in the field of information and communication technology ict covering all protocol layers and technologies in the field

ICT Systems and Sustainability

2022-01-04

this book proposes new technologies and discusses future solutions for ict design infrastructures as reflected in high quality papers presented at the 6th international conference on ict for sustainable development ict4sd 2021 held in

goa india on 5 6 august 2021 the book covers the topics such as big data and data mining data fusion iot programming toolkits and frameworks green communication systems and network use of ict in smart cities sensor networks and embedded system network and information security wireless and optical networks security trust and privacy routing and control protocols cognitive radio and networks and natural language processing bringing together experts from different countries the book explores a range of central issues from an international perspective

ICT Education

2022-01-19

this book constitutes the refereed proceedings of the 50th annual conference of the southern african computer lecturers association on ict education sacla 2021 held in johannesburg south africa in july 2021 the 9 revised full papers presented were carefully reviewed and selected fromthe 23 submissions one invited paper was also included in this volume the papers are organized in following topical sections past present and future teaching innovation teaching methods and strategies

Emerging ICT for Bridging the Future - Proceedings of the 49th Annual Convention of the Computer Society of India CSI Volume 2

2014-11-30

this volume contains 70 papers presented at csi 2014 emerging ict for bridging the future proceedings of the 49th annual convention of computer society of india the convention was held during 12 14 december 2014 at hyderabad telangana india this volume contains papers mainly focused on machine learning computational intelligence ad hoc wireless sensor networks and networks security data mining data engineering and soft computing

Research on E-Learning and ICT in Education

2021-03-09

this volume includes contributions based on selected full papers presented at the 11th pan hellenic and international conference ict in education held in greece in 2018 the volume includes papers covering technical pedagogical organizational instructional as well as policy aspects of ict in education and e learning special emphasis is given to applied research relevant to the educational practice guided by the educational realities in schools colleges universities and informal learning organizations this volume encompasses current trends perspectives and approaches determining e learning and ict integration in practice including

learning and teaching curriculum and instructional design learning media and environments teacher education and professional development it is based on research work originally presented at the conference but the call for chapters was open and disseminated to the international community attracting also international contributions

Revise GCSE ICT Practice Papers

2013-12-13

practice papers to help your students prepare for gcse assessment

ICT Innovations 2014

2014-08-09

data is a common ground a starting point for each ict system data needs processing use of different technologies and state of the art methods in order to obtain new knowledge to develop new useful applications that not only ease but also increase the quality of life these applications use the exploration of big data high throughput data data warehouse data mining bioinformatics robotics with data coming from social media sensors scientific applications surveillance video and image archives internet texts and documents internet search indexing medical records business transactions web logs etc information and communication technologies have become the asset in everyday life enabling increased level of communication processing and information exchange this book offers a collection of selected papers presented at the sixth international conference on ict innovations held in september 2014 in ohrid macedonia with main topic world of data the conference gathered academics professionals and practitioners in developing solutions and systems in the industrial and business arena especially innovative commercial implementations novel applications of technology and experience in applying recent ict research advances to practical solutions

Proceedings of First International Conference on Information and Communication Technology for Intelligent Systems: Volume 2

2016-05-03

this volume contains 60 papers presented at ictis 2015 international conference on information and communication technology for intelligent systems the conference was held during 28th and 29th november 2015 ahmedabad india and organized communally by venus international college of technology association of computer machinery ahmedabad chapter and supported by computer society of india division iv communication and division v education and research this volume contains

papers mainly focused on ict and its application for intelligent computing cloud storage data mining image processing and software analysis etc

ICT Innovations 2010

2011-03-01

this book constitutes the refereed proceedings of the second international conference ict innovations 2010 held in ohrid macedonia in september 2010 the 33 revised papers presented together with 5 invited papers were carefully reviewed and selected the papers address the following topics internet applications and services artificial intelligence bioinformatics internet mobile and wireless technologies multimedia information systems computer networks computer security e business cryptography high performance computing social networks e government as well as gpu computing

JOURNAL OF ICT STANDARDIZATION

2016-03-15

objectives bring papers on new developments innovations and standards to the readers cover pre development including technologies with potential of becoming a standard as well as developed deployed standards publish on going work including work with potential of becoming a standard technology publish papers giving explanation of standardization and innovation process and the link between standardization and innovation publish tutorial type papers giving new comers a understanding of standardization and innovation aims scope aims the aims of this journal is to publish standardized as well as related work making standards accessible to a wide public from practitioners to new comers the journal aims at publishing in depth as well as overview work including papers discussing standardization process and those helping new comers to understand how standards work scope bring up to date information regarding standardization in the field of information and communication technology ict covering all protocol layers and technologies in the field background standardization is essential for our society as well as economy from usage to communication between different devices including interoperability standardization gives choice and reduces cost of the products standards make technology or create path for technologies to be available globally as standards standardization is essential part of human society it is essential for people to understand standards and all aspects related to it

ICT Development Strategies

2014-02-01

after a decade internet now reaches the asian region as well as african countries intensively while usa canada and europe are focusing newer inventions within the asian region it exists considerably another technological gap among countries the

countries with higher income such as japan singapore south korea has succeeded in implementing ict in all social and economic areas the rest of the countries including china malaysia thailand indonesia philippines vietnam laos cambodia are far behind in information technology nevertheless it s necessary for all nations weather developed or developing to keep on nurturing ict development to be a part of connected world the question is how a nation can successfully adopt ict and benefit from all advantages at best unfortunately there is no common guideline for all countries without identifying specific factors of each country and a lot of effort made by government no country can achieve high ict performance in the long run the purpose of this paper is three fold to identify the characteristics and political options of a country that would affect the success of ist ict adoption to identify clusters of nations upon the international ict indices and gni per capita to provide an overall guideline that incorporates these nations toward developing higher ict indices this paper shows income level and social background can play very important roles in country s ict development

Communities in Action

2009-05-05

icts have become a very powerful community resource viewed by many authors in this volume as two way mechanisms facilitating the perpetuation of and reflecting esteemed community values the contents of this volume make it clear that icts have a huge capacity for incorporation into different forms of community action including social change community learning community connection and community development through studying the papers in this volume readers can learn about multiple forms of icts and action and how action is understood and improve their grasp of the complexities of social technical relations the chapters in this volume began life as papers at the conference on community informatics prospects for communities and action in 2007 the fourth successful community informatics conference held at the monash university centre prato italy this book creates a platform for exchanging experiences case studies and possible solutions to address the difficulties in deploying ict in many contexts and will be of interest to all researchers and practioners who engage with ict particularly those in the community and developmental informatics field

Cross-national Information and Communication Technology Policies and Practices in Education

2009

a volume in research in educational policy local national and global perspectives series editor kenneth k wong brown university this compendium of papers documents educational ict policies and practices in 37 countries making it a valuable resource for understanding and comparing ict related national policy developments in education we believe that this work offers a unique in depth

examination of the trends within major education systems and how they have adapted to and taken advantage of the challenges and opportunities posed by the new information and communication technologies a special feature of this edition is that it allows for interesting comparative analyses of sub groups of countries as many asian european union and former eastern european countries as well as the united states and canada among others are included in the book but it allows also for other than regional comparisons given that a number of newly industrialized countries such as brazil chile malaysia and south africa are represented in this book together with many oecd countries this book is the result of the effort and hard work of the contributing authors many of whom are the national research coordinators for the second it in education study sites conducted under the auspices of the international association for the evaluation of educational achievement iea for which the data collection took place in 2006 the structure of this book is similar to the previous edition published in 2003 in that it contains both country chapters and summary chapters the country or education system chapters demonstrate the rich variation in policies and strategies on ict in education around the world to allow for comparisons across countries all authors followed an outline consisting of the following main topics the structure and nature of their educational system ict related policies illustrated with examples special issues such as equal opportunities or problems with sustainability current trends in policies and practices and expectations for the future there are clear differences between countries in economic condition information technology development and historical background in essence the approach followed resulted in a set of country papers that show a number of commonalities but also reflect the cultural richness and variation

Shaping the Future of ICT Research: Methods and Approaches

2012-12-09

this book constitutes the refereed proceedings of the ifip wg 8 2 working conference shaping the future of ict research held in tampa fl usa in december 2012 the 15 revised full papers presented were carefully reviewed and selected from numerous submissions the papers are organized in the following topical sections new methods in design science research recent developments in inductive research methods emerging themes in interpretive case study research new ideas in positivist research and innovative trends in information systems research

Chemistry Education in the ICT Age

2009-07-21

th th the 20 international conference on chemical education 20 icce which had rd th chemistry in the ict age as the theme was held from 3 to 8 august 2008 at le méridien hotel pointe aux piments in mauritius with more than 200 participants

from 40 countries the conference featured 140 oral and 50 poster presentations th participants of the 20 icce were invited to submit full papers and the latter were subjected to peer review the selected accepted papers are collected in this book of proceedings this book of proceedings encloses 39 presentations covering topics ranging from fundamental to applied chemistry such as arts and chemistry education biochemistry and biotechnology chemical education for development chemistry at secondary level chemistry at tertiary level chemistry teacher education chemistry and society chemistry olympiad context oriented chemistry ict and chemistry education green chemistry micro scale chemistry modern technologies in chemistry education network for chemistry and chemical engineering education public understanding of chemistry research in chemistry education and science education at elementary level we would like to thank those who submitted the full papers and the reviewers for their timely help in assessing the papers for publication th we would also like to pay a special tribute to all the sponsors of the 20 icce and in particular the tertiary education commission tec intnet mu and the organisation for the prohibition of chemical weapons opcw org for kindly agreeing to fund the publication of these proceedings

Information and Communication Technology for Competitive Strategies (ICTCS 2020)

2021-07-06

this book contains the best selected research papers presented at ictcs 2020 fifth international conference on information and communication technology for competitive strategies the conference was held at jaipur rajasthan india during 11 12 december 2020 the book covers state of the art as well as emerging topics pertaining to ict and effective strategies for its implementation for engineering and managerial applications this book contains papers mainly focused on ict for computation algorithms and data analytics and it security

ICT Education

2016-10-15

this book constitutes the refereed proceedings of the 45th annual conference of the southern african computer lecturers association on ict education sacla 2016 held in cullinan south africa in july 2016 the three revised full papers and 13 work in progress papers presented together with two invited keynote papers were carefully reviewed and selected from 30 submissions the papers are organized in topical sections on assessment methods instruction methods new curricula social skills and various experiences

ICT and the Teacher of the Future

2003

this book contains extended versions of the best papers presented at the 14th international conference on information and communication technologies in education research and industrial applications icteri 2018 held in kyiv ukraine in may 2018 the 14 revised full papers included in this volume along with one invited full paper were carefully reviewed and selected from 257 initial submissions the papers are organized in the following topical sections advances in ict research ict in education and education management ict solutions for industrial applications

Information and Communication Technologies in Education, Research, and Industrial Applications

2019-02-13

this volume contains 85 papers presented at csi 2013 48th annual convention of computer society of india with the theme ict and critical infrastructure the convention was held during 13th 15th december 2013 at hotel novotel varun beach visakhapatnam and hosted by computer society of india vishakhapatnam chapter in association with vishakhapatnam steel plant the flagship company of rinl india this volume contains papers mainly focused on data mining data engineering and image processing software engineering and bio informatics network security digital forensics and cyber crime internet and multimedia applications and e governance applications

ICT and Critical Infrastructure: Proceedings of the 48th Annual Convention of Computer Society of India- Vol II

2013-10-19

this book constitutes selected papers presented at the first international conference on ict for health accessibility and wellbeing ihaw 2021 held in larnaca cyprus in november 2021 the 12 full papers and 7 short papers were thoroughly reviewed and selected from 36 submissions one invited paper was also included in this volume the papers are organized in topical sections on active aging assistive devices and systems brain functions support and mhealth brain functions support and oncology ict and wellbeing

ICT for Health, Accessibility and Wellbeing

2021

information and communications technology ict is used in healthcare and health science research in application domains such as clinical trials and the development of drug and medical devices as well as in translational medicine with the aim of improving prevention diagnosis and interventions in health and care this book presents accepted papers from the 2019 european federation of medical informatics conference efmi stc 2019 held in hanover germany from 7 10 april 2019 more than 90 submissions were received from which after review the scientific program committee spc accepted 50 full papers to be included in this volume of proceedings in addition 16 poster presentations were accepted this year ict for health science research was selected as the focus topic and the conference also honors prof peter leo reichertz 1930 1987 one of the founding fathers of ict healthcare and an originator of the term medical informatics the conference focuses on recent research development supporting information systems in biomedical translational and clinical research as well as semantic interoperability across such systems for the purpose of data sharing and the analytics of cross system integrated data papers are divided into 12 categories covering topics including digitization data privacy interoperability data driven decision support mobile data capture and ict for clinical trials the book will be of interest to all healthcare researchers and practitioners whose work involves the use of ict

ICT for Health Science Research

2019-04-17

this text provides advice on how to ensure educational quality is maintained when ict approaches are successfully adopted it includes contributions from authors around the world who scrutinize the implications for using institution wide ict in teaching strategy

Conference proceedings. ICT for language learning. 10th Edition

2017-10-23

this book features a selection of thoroughly refereed papers presented at two subconferences of the ifip tc 3 conference on key competencies in informatics and information and communication technologies the ifip wg 3 4 conference on key competencies for educating ict professionals kcictp 2014 and the ifip wg 3 7 conference on information technology in educational management item 2014 held in potsdam germany in july 2014 the 28 revised full papers were carefully reviewed and selected from numerous submissions they are organized in the following topical sections key competencies for educating ict professionals key competencies learning and life transitions key competencies and school management and education stakeholders and key competencies

Quality Issues in ICT-based Higher Education

2005

Key Competencies in ICT and Informatics: Implications and Issues for Educational Professionals and Management

2014-12-15
