drawing on in depth empirical research spanning a number of countries in africa booth and cammack s path breaking book offers both an accessible overview of issues surrounding governance for development on the continent whilst also offering a bold new alternative in doing so they controversially argue that externally imposed good governance approaches make unrealistic assumptions about the choices leaders and officials are in practice able to make as a result reform initiatives and assistance programmes supported by donors regularly fail while ignoring the potential for addressing the causes rather than the symptoms of this situation in reality the authors show anti developmental behaviours stem from unresolved yet in principle soluble collective action problems governance for development in africa offers a comprehensive and critical examination of the institutional barriers to economic and social progress in africa and makes a compelling plea for fresh policy thinking and new ways of envisioning so called good governance

populism is a category which is often abused in current public discourse it is an issue that is usually looked at from the perspective of political science or

cultural studies while historians have rarely confronted it nonetheless the study of historical cases of populism is a necessary preliminary task for an in depth examination of the topic this book opens up a channel of dialogue among political scientists sociologists philosophers and historians in order to launch a debate on the declination of the populist phenomenon the essays here consist of the reflections of various scholars on several national cases through a survey conducted on a large temporal and spatial horizon from the experiences developed in eastern europe at the end of the nineteenth century to the more recent events of ukraine s revolution at the end of the twentieth and from the first case of a populist party in the us to the examples of the italian political scenario in the 1980s in order to identify which historical perspective would be the most suitable for understanding populism and if populism can actually be considered a category that fits into the historical investigation of these phenomena

jean paul sartre s work has been taken up by writers outside of europe particularly in the global south who have developed phenomenological and existential analyses of racism colonialism and other structures of domination sartre s philosophical concepts are fundamentally open for instance his notions of humanism bad faith and freedom as a situational committed thinker sartre worked to illuminate the urgent questions of his time at the concrete and the abstract level the creolization of sartrean thinking is consistent with the existential projects of engagement authenticity political

commitment and liberation from oppression this volume asks how his european model of phenomenology was and can be transformed when it is taken up by thinkers who have lived experience with colonialism they book also engages sartre in his relation to key interlocutors especially beauvoir and fanon who were influenced by him and who influenced him in turn the book demonstrates how sartrean philosophy is productively related to africana philosophy africana phenomenology and africana existentialism this volume treats creolization not as a discrete topic but as an interdisciplinary global approach to reading and thinking each author s contribution embodies an aspect of creolizing thinking understood as the articulation of cultural and conceptual hybridity under conditions of eurocentrism epistemic colonialism and the legacies of slavery creolizing sartre re reads sartrean texts to recast existential themes through the lens of caribbean philosophies and the broader philosophies of the global south contributors lawrence bamikole sybil newton cooksey james haile iii paget henry t storm heter thomas meagher michael j monahan anthony sean neal nathalie nya kris f sealey hiroaki seki jonathan webber

raphael sassower examines the concept of hypocrisy for its strategic potential as a means of personal protection and social cohesion given the contemporary context of post truth the examination of degrees or kinds of hypocrisy moves from the greek etymology of masks worn on the theater stage to the hebrew etymology of the color adjustment of chameleons to their environment canonical presuppositions about the uniformity of the mind and the relation between intention and behavior that warrant the charge of hypocrisy are critically reconsidered in order to appreciate both inherent inconsistencies in personal conduct and the different contexts where the hypocrisy appears sassower considers the limits of analytic moral and political discourses that at times overlook the conditions under which putative hypocritical behavior is existentially required and where compromises yield positive results when used among friends the charge of hypocrisy is a useful tool with which to build trust and communities
