Conservative Government Penal Policy 2015-2021

2022-07-28

this book interrogates conservative government penal policy for adult and young adult offenders in england and wales between 2015 and 2021 government penal policy is shown to have been often ineffective and costly and to have revived efforts to push the system towards a disastrous combination of austerity outsourcing and punishment that has exacerbated the penal crisis this investigation has meant touching on topical debates dealing with the impact of resource scarcity on offenders experiences of the penal system the impact of an increasing emphasis on punishment on offenders sense of justice and fairness the balance struck between infection control and offender welfare during the government handling of the sars cov 2 pandemic and why successive conservative governments have intransigently pursued a penal policy that has proved crisis exacerbating the overall conclusion reached is that penal policy is too important to be left to governments alone and needs to be recalibrated by a one off inquiry complemented by an on going advisory body capable of requiring governments to explain or change the book is distinctive in that it provides a critical review of penal policy change whilst combining this with insights derived from the sociological analysis of penal trends

this book offers a general introduction to and analysis of the history theory and public policy of Australian local government systems conceived in an international comparative context and primarily from within the discipline of political studies it also incorporates elements of economics and public administration existing research tends to conceptualise Australian local government as an element of public policy grounded in an administrative science approach a feature of this approach is that generally normative considerations form only a latent element of the discussions which is invariably anchored in debates about institutional design rather than the normative defensibility of local government the book addresses this point by providing an account of the terrain of theoretical debate alongside salient themes in public policy

local governments play a significant role in china s public finance and fiscal operations the size of local government debt has grown rapidly over the past years exceeding the stock of sovereign debt in china how does this development compare to other countries and what policies can foster the sound development of the bond markets this paper finds that despite its rapid growth the local government bond market is still underdeveloped severe impediments low liquidity weak credit discipline structural fiscal deficit in local governments have become more visible reforms to develop a sound local government bond market should harmonize tax and regulations build liquidity

and advance fiscal reforms to tighten off budget borrowing and address intergovernmental imbalances

as governments are major buyers of goods and services foreign companies are keen to be able to participate in procurement opportunities on an equal footing with national firms this has given rise to the inclusion of procurement disciplines in trade agreements and to internationally agreed good regulatory practices in this important policy area the contributions to this book examine how the dynamic mix of bilateral regional plurilateral and international norms on government procurement is reflected in purchasing practices at the national level and whether these are leading to convergence in policies and approaches the countries studied span both advanced high income economies and emerging economies some are members of the wto procurement agreement others are not most wto members have decided not to commit to binding international disciplines on procurement in trade agreements this book explores whether there has been nonetheless internationalization of good procurement practices and what current public purchasing processes suggest as regards the value added of signing on to

binding rules of the game in this area the approach taken in in the volume is interdisciplinary 0contributors include economists political scientists legal scholars and practitioners with a solid understanding of both the extant international disciplines and national government procurement policies each chapter assesses the current state of play as regards legislation and procurement practices the degree to which industrial policy considerations feature in the relevant regulatory frameworks the existence and use of domestic dispute resolution and review procedures that allow firms to contest the behavior of procuring entities and the availability of data on procurement processes and outcomes back of cover

the purpose of the report is to distil experience from this parliament and to assist the new committee in the next parliament it considers how the committee approached its work the way it has used research and how this might be strengthened and its own assessment of performance against the core tasks set by the liaison committee it then suggests some matters the new committee might consider examining in the next parliament these include both unfinished

business topics the committee looked at over the parliament to which the successors might wish to return and new developments which the committee considers will emerge as major issues over the next five years

it is staggering that the government has given over 40 million to kids company over the past 13 years and still has no idea what it was getting for taxpayers money it was not part of this inquiry to assess the outcomes of kids company s work we object to the obvious unfairness of central government

directly funding a charity which operated in only two london boroughs for most of its existence with around 4 million a year at the expense of other charities and young people across the country despite repeated warnings and concerns about kids company s financial situation and the impact it was achieving funding to the charity continued and was never seriously questioned let alone stopped instead responsibilities were passed between departments like a hot potato all the warning signs of a failed and expensive experiment had long been there but it was not until june 2015 that officials finally stood up to ministers said enough was enough and sought ministerial direction before providing more money by then it was too late

the parliamentary elections of 2015 16 in greece spain and portugal had extraordinary consequences bringing repeat elections unprecedented processes of government formation and uncharted government outcomes greece formed a coalition of radical left and radical right and portugal its first government supported by the communist party while spain took ten months to get a government these developments are especially astonishing in three states which in previous decades were a byword for democratic stability after the

transitions following the fall of their dictatorships in the 1970s greece spain and portugal established bipolar electoral competition and predictable patterns of government formation but more recently all three countries have been in the frontline of the economic crisis and austerity implementation triggering electoral realignments and turning the radical left into a major player this volume offers essential understanding of the political destabilisation of southern europe it includes detailed analyses of all five crisis elections and of greece s bailout referendum it also provides studies of the five new contender parties syryza podemos ciudadanos the bloco esquerda and the portuguese communist party which played a key role in government formation for the first time the chapters originally published as a special issue in south european society and politics

following the 2008 global financial crisis canada appeared to escape the austerity implemented elsewhere but this was spin hiding the reality a closer look reveals that the provinces responsible for delivering essential public

and social services such as education and healthcare shouldered the burden the public sector in an age of austerity examines public sector austerity in the provinces and territories specifically addressing how austerity was implemented what forms austerity agendas took from regressive taxes and new user fees to public sector layoffs and privatization schemes and what if any political responses resulted contributors focus on the period from 2007 to 2015 the global financial crisis and the period of fiscal consolidation that followed while also providing a longer historical context austerity is not a new phenomenon a granular examination of each jurisdiction identifies how changing fiscal conditions have affected the delivery of public services and restructured public finances highlighting the consequences such changes have had for public sector workers and users of public services the first book of its kind in canada the public sector in an age of austerity challenges conventional wisdom by showing that canada did not escape post crisis austerity and that its recovery has been vastly overstated

central government grant funding to local authorities is being cut by over a quarter in real terms 7.6 billion between 2011 and 2015 the department for communities and local government is also introducing fundamental changes to the local government finance system with reforms to business rates and council tax benefits so the pressures on the sector are set to increase the department does not properly understand the overall impact on local services that will result from the funding reductions nor has it modelled how funding changes may adversely affect other areas of the public sector it must improve its ability to foresee what effects the full package of funding reductions and reforms will have on local authority areas particularly for those authorities which face higher deprivation levels local authorities statutory duties have stayed broadly the same and in some areas such as adult social care the demand for services is increasing there is a risk that the worst affected councils will be unable to meet their statutory obligations threatening their viability the department must clarify its plans to respond if councils become unviable more information is needed to understand councils spending and performance the department did not make clear how it will monitor councils ability to cope with funding changes or the extent to which they are able to do this by increasing efficiency rather than reducing services neither has it demonstrated that the information published is sufficient to provide assurance on the value for money with which councils spend their resources

the island of sri lanka formerly ceylon was one of the few asian colonies in which the british empire experimented liberal state building in the nineteenth century and where many british colonial officials predicted that the independent state would become a liberal democratic success story sri

lanka has held on to much of the liberal democratic state institutions left behind by the british empire including periodic elections at the same time the un s office of the high commissioner for human rights concluded in september 2015 that there are reasonable grounds to believe that sri lanka committed serious international crimes against the tamils such accusations are usually levelled against authoritarian states it is unusual for a democracy to face such charges this book analyses where sri lanka stands as a state that has in place liberal democratic state institutions but exhibits the characteristics of an authoritarian state using michel foucault s concept of biopolitics the author argues that sri lanka enacted racist legislations and perpetrated mass atrocities on the tamils as part of its biopolitics of institutionalising and securing a sinhala buddhist ethnocratic state order the book also explores the ways that apart from military action power relations produce the effects of battle and thus the way that peace can often become a means of waging war the author provides fresh insights into sri lanka s postcolonial policies and the system of government that it has in place a novel approach to analysing sri lanka s postcolonial policies and the system of government this book will be of interests to researchers in the field of political science asian politics and international relations

this report follows up our november 2014 report on child sexual exploitation in rotherham and covers two matters the role of ofsted and louise casey s inspection report on rotherham it is clear that the inspection arrangements that ofsted had in place from 2007 when it became responsible for inspecting children s services at rotherham failed to detect either the evidence or the knowledge within the council of large scale child sexual exploitation the structured inspection method used at that time to inspect local authorities children s services was designed by ofsted and did not focus on child sexual exploitation the result was a lack of intelligence and understanding in ofsted s handling of rotherham child sexual exploitation was missed as was the superficiality of rotherham s response to inspection findings and its dysfunction the committee found louise casey s report on her inspection of rotherham to be penetrating and instructive it not only confirmed the dreadful findings in the jay report but what was worse revealed that rotherham council was in denial about child sexual exploitation
