the popular belief that a scientific understanding of reality is incompatible with a christian one is simply wrong some christian understandings of reality do conflict with some scientific understandings but a thoroughly rational christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them this book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a christian understanding of god and of god s role in the origin and history of the universe at the center of this integrated narrative is the view that god who is pure unbounded love is creator the zest for life in the universe comes from god and god is the source of truth beauty and goodness in the universe god is amazed and delighted at what god and the world has created god is saddened by ways creatures have fallen short of pure unbounded love truth beauty and goodness and god s pure unbounded love keeps on trying to persuade all creatures toward truth beauty and goodness

God and the Cosmos 2012-02-16

theologian harry lee poe and chemist jimmy h davis argue that god s interaction with our world is a possibility affirmed equally by the bible and the contemporary scientific record rather than confirming that the cosmos is closed to the actions of the divine advancing scientific knowledge seems to indicate that the nature of the universe is actually open to the unique type of divine activity portrayed in the bible

is our christianity that of the new testament god and men and their relation to each other this i believe to be all that really matters in the world and that is what i have written about here a w tozer like a physician running a biopsy on lifeless faith here a w tozer offers one of the most compelling critiques of feigned spirituality you may ever read in of god and men tozer exposes false religious notions and lifts up true new testament christianity a loving and gentle critique of culture and even the church it reveals lies we unknowingly believe godless practices we unknowingly do and treasures of christ we unknowingly ignore a manifesto of true religion of god and men will set your foot on the narrow path and lift your heart in soaring worship

in this hour of all but universal darkness one cheering gleam appears within the fold of conservative christianity there are to be found increasing numbers of persons whose religious lives are marked by a growing hunger after god himself they are eager for spiritual realities and will not be put off with words nor will they be content with correct interpretations of truth they are athirst for god and they will not be satisfied till they have drunk deep at the fountain of living water this book is a modest attempt to aid god s hungry children so to find him nothing here is new except in the sense that it is a discovery which my own heart has made of spiritual realities most delightful and wonderful to me others before me have gone much farther into these holy mysteries than i have done but if my fire is not large it is yet real and there may be those who can light their candle at its flame

The Pursuit of God 2018-01-25

from biblical times through the middle ages and the reformation the christian religion enjoyed a sturdy belief in god consistent with human knowledge of the universe but modern science then introduced a new picture of this world at odds not only with the old world picture but with the miracle working god of ancient scripture of the many different responses to this conflict three stand out i to deny the religious view of god and the world or ii to deny many solid findings of generations of scientists concerning the evolution of stars the earth and life or iii to deny little yet to affirm little in religion to repeat ancient rituals without serious conviction lee adams young a physicist and bible scholar claims to replace this chaos with an orderly view of god and the

world in only 437 pages he makes three main points 1 the bible consistently but falsely split the world into two separate realms heaven and earth god rarely or never left his celestial throne room to visit the earth the steeples of traditional churches pointed toward this sky god and the lord s prayer still speaks of a father in heaven the result has been a disconnect between god and the believer a chasm bridged only by armies of angels and other intermediaries or via long distance calls the solution according to at home with god here and now is to proclaim as does science that there is only one realm of reality god should be seen as dwelling in this world says young indeed within each of us available for direct communication and personal support prayer should take the form of face to face communication with a person no farther away than the other end of a park bench 2 the bible consistently and correctly insists upon the inseparability of the human body and soul so does aristotle and the latest catholic catechism alas in postbiblical times many jews and christians have come to believe that at death the human soul could detach itself from the body and ascend to heaven young responds as follows a if there is no heaven the latter step has no meaning we are face to face with god now in this life because we already live in a sacred world one need not die in order to reach the divine b the notion of a soul that can function independently of bodily support goes against ancient and modern awareness of the influence of bodily conditions on thinking and memory c near death experiences ndes are reports from the living not from those who died medical research shows that ndes are triggered not by the objective peril of death but by the subjective fear of death d human faith in an afterlife can blunt the human need to put interpersonal relationships in order in this life we must mend our personal fences now there is no second chance as the hebrew bible says 3 the god depicted in young s book is entirely consistent with modern science that god is seen as the essential governor of nature whose regularities people depend on and science describes this book is recommended to all who seek a religious faith based on reality not makebelieve a faith grounded in ancient wisdom yet believable in this modern age

the sovereignty of god is a doctrine that has been debated by christians for centuries for some this remains a passionate topic creating different camps among christians endlessly arguing about whether god s sovereignty and human free will can co exist for the majority the doctrine is a vague concept that remains to be explored this book deals with these issues by examining what the bible says about god s sovereignty and human responsibility it explores the sovereignty of god by looking at god as the creator saviour shepherd and judge and tackles questions that commonly emerge if we believe that god is truly sovereign then we must live out the implications by living faithfully and responsibly by trusting and obeying him amid the challenges of life praying to him sharing about him with others and serving and hoping in him our relationship with him is an important way to understand how his

grace purpose and power invite us to respond responsibly to him in active discipleship

over 75 of the people who live on this planet are followers of one of the three major monotheistic religions they all consider abraham as the father of their race and religion they all believe in one singular all powerful all knowing benevolent god the hebrew call him yahweh the christians refer to him as father or lord and muslims call him allah and yet millions and millions of people have been murdered maimed and tortured by the followers of this single entity to prove that their version of this single god is better than the other two versions sounds ridiculous and yet sadly enough more people have died in the name of religion than any other cause in the history of humanity each and every one of us at one time or another has asked or thought about such fundamental questions as is there a god where did humans come from why out of millions of species on earth only humans reached this level of sophistication is there a life after death is there a purpose to life why are we here are the scriptures truly the words of god more importantly is there any way we could find answers to such questions the fact is the answer to most of these questions and many more that we thought unanswerable have been written down on clay tablets by our ancient ancestors who lived in mesopotamia over 7000 years ago these records are readily available to those who are willing to step outside the dogmatic belief system of the establishment and are prepared mentally and spiritually to tolerate a totally different rendering of the oldest written historical records about mankind s origin purpose and the truth about god our maker the subject matter of this book is an attempt to investigate the circumstances under which mankind was made and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion this is done primarily by relying on our scriptural texts particularly the old testament as well as other ancient manuscripts such as sumerian akkadian and babylonian creation and genesis epics the first chapter begins by examining the behaviour commands and instructions given by yahweh to his chosen people these commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies past and present the question is then asked how could an entity powerful enough to have created the entire universe issue such cruel and sadistic commands against some of his own creations

furthermore yahweh s behaviour is decidedly pro hebrew and shows no regards or thought about non hebrew masses how could the universal god show such bias towards a tiny fraction of his creatures with total disregard for the rest finally the characteristics and personalities of yahweh is analysed by scrutinising his behaviour actions and directives as stated in the old testament before examining the god of christianity in investigating the role and characteristics of god in christianity the first thing that immediately becomes apparent is the absence of a prominent role for god the father as we had witnessed in judaism the christians or more specifically saint paul who was the founder and designer of christianity as we know it today in order to distance his creation from the hebrews and religion of yahweh invented a new godhead and named him jesus christ ancient greek Ἰησοῦς iċsous born of a virgin with powers to heal the sick give sight to the blind and even raise the dead who was crucified but resurrected three days later these were all characteristics borrowed from various religions and cults prevalent at the time in the levant from mithraism to the cult of apoll

God and the Struggle for Existence 2010-07-27

many people believe in god and believe that god is everywhere but they have yet to experience his presence what did it mean for moises to encounter god at the burning bush how did it change his life and his perception of god what is keeping you from experiencing his presence in your life it was in that burning bush experience that moises began to understand and appreciate the sacredness of worship through this book tozer teaches how proper worship has to be equal to the one we are worshiping so if we are worshiping god we must do it on his terms this means having a spirit of reverence and holiness like moises taking off his shoes and kneeling before him the bush's fire did not frighten moises but rather it poured the essence of sacredness into his life giving him an experience he had never had before let this book teach you how like moises to kneel and worship before god's holy fire

why do bad things happen even to good people if there is a god why aren t god s existence and god s will for humans more apparent and if god really does miracles for some people why not for others this book examines these three problems of evil suffering divine hiddenness and unfairness if miracles happen as believers claim to explore how different ideas of god s power relate to the problem of evil keller argues that as long as god is believed to be all powerful there are no adequate answers to these problems nor is it enough for theists simply to claim that human ignorance makes these problems insoluble arguing that there are no good grounds for the belief that god is all powerful keller instead defends the understanding of god and god s power found in process theism and shows how it makes possible an adequate solution to the problems of evil while providing a concept of god that is religiously adequate

one of the vital issues in contemporary christian theology is the problem of a renewed understanding of god s eternity and its relation to time this is not merely a peripheral doctrinal issue but lies at the heart of our understanding of god and humanity and contributes to our entire worldview this study focuses on a long standing debate between two competing views on god s eternity one focused on god s absolute timelessness in classical theism and the other on god s temporal everlastingness in contemporary panentheism in contrast to both of these well worn options this book presents an alternative trinitarian analogical understanding of god s eternity and its relation to time especially through a critical reflection on karl barth s and hans urs von balthasar s engagement of the issue this analogical approach based on the dynamic and dramatic concepts of god s being in relation and of the triune god s communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration
