an intimate portrait based on newly discovered archival sources of one of the most famous jewish artists of the italian renaissance who charged with a scandalous crime renounced his faith and converted to catholicism in 1491 the renowned goldsmith salomone da sesso converted to catholicism born in the mid fifteenth century to a jewish family in florence salomone later settled in ferrara where he was regarded as a virtuoso artist whose exquisite jewelry and lavishly engraved swords were prized by italy's ruling elite but rumors circulated about salomone's behavior scandalizing the jewish community who turned him over to the civil authorities charged with sodomy salomone was sentenced to die but agreed to renounce judaism to save his life he was baptized taking the name ercole de fedeli one of the faithful with the help of powerful patrons like duchess eleonora of aragon and duke ercole d'este his namesake ercole lived as a practicing catholic for three more decades drawing on newly discovered archival sources tamar herzig traces the dramatic story of his life half a century before ecclesiastical authorities made jewish conversion a priority of the catholic church a convert's tale explores the jewish world in which salomone was born and raised the glittering objects he crafted and their status as courtly hallmarks and ercole's relations with his wealthy patrons herzig also examines homosexuality in renaissance italy the response of jewish communities and christian authorities to allegations of sexual crimes and attitudes toward homosexual acts among christians and jews in salomone ercole's story we see how precarious life was for converts from judaism and how contested was the meaning of conversion for both the apostates former coreligionists and those tasked with welcoming them to their new faith

based on documents which appear in the appendix on pp 129 238 reconstructs the activities of conversos who fled the portuguese inquisition to antwerp and to london these portuguese nations established the sedakah rescue organization to help smuggle fellow conversos from lisbon to antwerp and over the alps to italy or to the ottoman empire england served only as a temporary refuge for conversos who were persecuted in the low countries however they were generally despite occasional persecution allowed to remain in antwerp due to the policies of emperor charles v and local authorities both of whom were guided by economic considerations disputes the view that charles who was responsible for the

contemporary inquisition in spain instituted one also in the netherlands stresses that the emperor used civil not ecclesiastical institutions to attain his goal which in the case of the conversos as opposed to the protestants was greed rather than the persecution of heresy the rescue organization headed among others by diogo mendes benveniste helped conversos reach among other places ferrara where duke ercole ii of este provided them with good conditions including the right to practice judaism in return for their role in developing the local economy
