a century and a half after the abolition of slavery in the united states survivors of contemporary forms of enslavement from around the world have revived a powerful tool of the abolitionist movement first person narratives of slavery and freedom just as frederick douglass harriet jacobs and others used autobiographical testimonies in the fight to eradicate slavery today s new slave narrators play a crucial role in shaping an antislavery agenda their writings unveil the systemic underpinnings of global slavery while critiquing the precarity of their hard fought freedom at the same time the demands of antislavery organizations religious groups and book publishers circumscribe the voices of the enslaved coopting their narratives in support of alternative agendas in this pathbreaking interdisciplinary study laura t murphy argues that the slave narrative has reemerged as a twenty first century genre that has gained new currency in the context of the memoir boom post 9 11 anti islamic sentiment and conservative family values politics she analyzes a diverse range of dozens of book length accounts of modern slavery from africa asia the united states the united kingdom and europe examining the narrative strategies that survivors of slavery employ to make their experiences legible and to promote a reinvigorated antislavery agenda by putting these stories into conversation with one another the new slave narrative reveals an emergent survivor centered counterdiscourse of collaboration and systemic change that offers an urgent critique of the systems that maintain contemporary slavery as well as of the human rights industry and the antislavery movement

it is quite appropriate for Dr. Waters to examine voice in these three important narratives on the African American experience in slavery by analyzing how Equiano, Douglass, and Northrup used language symbolism, experiences, and events in their lives as slaves to describe, critique, and attack slavery. Dr. Waters provides us with the subtextual meaning of the narratives; the most important contribution is that it provides scholars and students with a new way to analyze and understand American slave narratives. One of the most fascinating phenomena of American history is how the slave experience of Africans in America has been documented to balance the myth of the Old South with the brutal realities of racial oppression. Indeed, the United States is quite unique in having a body of narratives by former slaves to balance and challenge the myths and lies of the master or slaveholding class about the nature of American slavery in the Atlantic world. At least no other people who were formerly enslaved have written and produced as extensive a body of literature to document, expose, and chronicle their experience in slavery. Thus, these narratives are very valuable because they e

## Narrative of the Life of Frederick Douglass, an American Slave

2016-10-25

In one volume there are seven slave narratives: compelling, harrowing at times, and beautiful stories of hope in the midst of deep adversity. 1. Narrative of the Life of Frederick Douglass, an American Slave: Frederick Douglass's eloquently written first autobiography was one of the most persuasive forces for emancipation as well as for the enlistment of Black soldiers in the Union Army. It is written beautifully and the story flies past a dazzling and awful account of slavery. 2. My Bondage and My Freedom: This is Frederick Douglass's second autobiography, written ten years after his emancipation and is unparalleled in its scope of the destructive effects of slavery on both individuals and communities. The power of this book is that it delves into the minds of rational, good people who were slave owners and discusses the economic conditions that sanctioned slavery's continued existence. 3. Twelve Years a Slave: This narrative was written by Solomon Northrup, a freeman kidnapped from the North and taken to a work on a plantation in Louisiana where he

lived for 12 years until he was rescued violence sadness grief and the treatment of human beings as lower than animals are the themes that run through this famous autobiography 4 the interesting narrative of the life of olaudah equiano or gustavus vassa the african olaudah equiano s interesting story provides an insight into a time and situation that few people survived to record or recall and those that did survive were rarely literate for this reason and so many others equiano or gustavus vassa as he was later christened has a unique story to tell it is an honest and chilling account of a man born free in africa and sold into slavery who spends most of life on the high seas until he finally acquires freedom he relates the experiences of black people in its myriad forms on three continents 5 incidents in the life of a slave girl seven years concealed in the pre civil war period of 1861 harriet jacobs was the only black woman in the united states to have authored her own slave narrative in a call to arouse the women of the north to a realizing sense of the condition of two millions of women at the south to convince the people of the free states what slavery really is jacobs hoped that should the white women of the north know the true conditions of the slave women of the south they would not fail to answer the call to moral action with the help of a northern abolitionist jacobs published this astounding poignant record under the pseudonym linda brent 6 up from slavery an autobiography booker t washington writes his story modestly but his greatness shines through he spent his early childhood as a slave on a plantation in the south but after the emancipation proclamation was read from the porch steps of the big house his ambitions to gain an education and make something of himself propelled him through every obstacle to his goal booker t washington was a tireless promoter of education for his race and founded a school for blacks in alabama he made great strides in elevating the sights and prospects of his people 7 running a thousand miles for freedom this is a great story of a married couple who were slaves and escaped to freedom in a unique way it is a horrifying account of the evil of slavery and the hope of freedom and human rights a compelling read

the distinction among slaves is as marked as the classes of society are in any aristocratic community some refusing to associate with others whom they deem to be beneath them in point of character color condition or the superior importance of their respective masters henry bibb fugitive slave editor and antislavery activist stated this in his narrative of the life and adventures of henry bibb 1849 in william l andrews s magisterial study of an entire generation of slave narrators more than 60 mid nineteenth century narratives reveal how work family skills and connections made for social and economic differences among the enslaved of the south slave narrators disclosed class based reasons for violence that broke out between impudent gentleman and lady slaves and their resentful mean masters andrews s far reaching book shows that status and class played key roles in the self and social awareness and in the processes of liberation portrayed in the narratives of the most celebrated fugitives from u s slavery such as frederick douglass harriet jacobs william wells brown and william and ellen craft slavery and class in the american south explains why social and economic distinctions developed and how they functioned among the enslaved noting that the majority of the slave narrators came from the higher echelons of the enslaved andrews also pays close attention to the narratives that have received the least notice from scholars those from the most exploited class the field hands by examining the lives of the most and least acclaimed heroes and heroines of the slave narrative andrews shows how the dividing edge of social class cut two ways sometimes separating upper and lower strata of slaves to their enslavers advantage but at other times fueling pride aspiration and a sense of just deserts among some of the enslaved that could be satisfied by nothing less than complete freedom the culmination of a career spent studying african american literature this comprehensive study of the antebellum slave narrative offers a ground breaking consideration of a unique genre of american literature

in this subtle and illuminating study kimberly rae connor surveys examples of contemporary literature drama art and music that extend the literary tradition of african american slave narratives revealing the powerful creative links between this tradition and liberation theology s search for grace she shows how these artworks profess a liberating theology of racial empathy and reconciliation even if not in traditionally christian or sacred language from frederick douglass s autobiographical writings through richard wright s imaginative reconstruction of slavery to ernest gaines s autobiography of miss jane pittman and the candescent novels of toni morrison slave narratives exhort the reader to step into the experience of the dispossessed connor underscores the broad influence of the slave narrative by considering nonliterary as well as literary works including glenn ligon s introspective art anna deavere smith s one woman performance pieces and charlie haden s politically engaged liberation music orchestra through these works readers listeners and viewers imagine grace on two levels as the liberation of the enslaved from oppression and as their own liberation from prejudice and willed innocence calling to task a complacent white society that turns a blind eye to deep seated and continuing racial inequalities imagining grace shows how these creative endeavors embody the search for grace seeking to expose racism in all its guises and lay claim to political intellectual and spiritual freedom

the african american slave narrative is popularly viewed as the story of a lone male s flight from slavery to freedom best exemplified by the narrative of the life of frederick douglass an american slave 1845 on the other hand critics have also given much attention to harriet jacobs s incidents in the life of a slave girl 1861 to indicate how the form could have been different if more women had written in it but in stressing the narratives of douglass and jacobs as models for the genre scholars have ignored the formal and thematic importance of marriage and family in the slave narrative since neither author explores slave marriage in their works this book examines the central role of marriage in the life and adventures of henry bibb an american slave 1849 and running a thousand miles for freedom or the escape of william and ellen craft from slavery 1860 bibb s slave wife and child account for significant innovations in the form and content of his narrative while the crafts mutual dependence as a married couple results in a sustained use of dramatic irony the volume closes by offering a thoughtful consideration of the influence of bibb and the crafts on the later fiction of douglass william wells brown and martin delany in doing so it invites a critical reexamination of current assumptions about slave narratives

the haitian revolution has generated responses from commentators in fields ranging from philosophy to historiography to twentieth century literary and artistic studies but what about the written work produced at the time by haitians this book is the first to present an account of a specifically haitian literary tradition in the revolutionary era beyond the slave narrative shows the emergence of two strands of textual innovation both evolving from the new revolutionary consciousness the remarkable political texts produced by haitian revolutionary leaders toussaint louverture and jean jacques dessalines and popular creole poetry from anonymous courtesans in saint domingue s libertine culture these textual forms though they differ from each other both demonstrate the increasing cultural autonomy and literary voice of non white populations in the colony at the time of revolution unschooled generals and courtesans long presented as voiceless are at last revealed to be legitimate speakers and authors these haitian french and creole texts have been neglected as a foundation of afro diasporic literature by former slaves in the atlantic world for two reasons because they do not fit the generic criteria of the slave narrative which is rooted in the autobiographical experience of enslavement and because they are mediated texts relayed to the print cultural atlantic domain not by the speakers themselves but by secretaries or refugee colonists these texts challenge how we think about authorial voice writing print culture and cultural autonomy in the context of the formerly enslaved and demand that we reassess our historical understanding of the haitian independence and its relationship to an international world of contemporary readers
