weekend houses as opposed to urban architecture take us back to the idea of warm spaces which dissolve the boundaries between interior and exterior inviting rest leisure and contact between man and nature

The British National Bibliography

2006

andré schiffrin dirigió pantheon books durante 30 años en los que no sólo publicó numerosísimos autores de lengua inglesa sino que introdujo la literatura y el pensamiento europeo en estados unidos de sartre y simone de beauvoir a foucault y gunther grass schiffrin ha sido testigo privilegiado del proceso que describe en estas páginas con gran lucidez y con una perspectiva histórica particularmente esclarecedora este libro se ha convertido en una obra de referencia indispensable una urgente llamada de atención sobre el tremendo impacto empobrecedor para la cultura de las grandes corporaciones editoriales

La edición sin editores

2001

the book provides a comprehensive analysis of local government in federations it fills the gap in current legal research and positions local government in federal studies through the lenses of comparative law

adopting a more nuanced approach to local government the book considers the shortcomings between the black letter constitution and its operational rules whether and how the regime of local government is implemented is more relevant than its formal but ineffective recognition the comparative survey discloses the variety local institutions take in different federal contexts divided into three parts the book comprises chapters investigating local government in systems that to various degrees have been examined and classified as federal scholars throughout the world have examined the federal local connection in aggregative federations the usa canada switzerland germany australia and austria devolutionary ones belgium bosnia herzegovina italy spain the uk argentina brazil mexico and the russian federation as well as in federations beyond the west where federalism as a colonial legacy has undergone a process of reinvention affecting the federal local connection south africa ethiopia india nigeria comoros democratic republic of congo nepal palau federated states of micronesia st kitts and nevis united arab emirates and pakistan

the risky business of french feminism publishing politics and artistry examines the institutional history of the publishing house editions des femmes as well as its relationship to the french women s liberation movement mlf from 1972 to the present the founding and subsequent success of editions des femmes in the publishing milieu intensified the ideological divisions within the mlf and highlighted the extent to which that movement failed to adequately reflect on the power inherent in its recourse to print culture as an agent of change in particular editions des femmes produced several periodical publications and pioneered a woman centered subculture that attached militant political meanings to the practice of buying and publishing books while the mlf succeeded in changing legislation detrimental to women it was not able to create unified cultural politics or construct a long term media strategy that could preserve the movement s original ideals and unity jennifer l sweatman explores the long term dissipation of the mlf as a unified force not only as an outcome of ideological disagreement but also due to conflicting views on culture women s creativity as a strategy for empowerment and the utility of media for creating change as the mlf fragmented unable to fully come to terms with its various consumer identities its need for capital to support creative projects and its difficult experience with collective

decision making the editions des femmes project was seen as incredibly controversial however editions des femmes embodied a broader strategy for cultural transformation that privileged women s creative works rather than feminism situating it as a successful forerunner of the revitalization of the publishing industry from below as small independent houses challenged the large media conglomerate control of the industry

Joyce in the Belly of the Big Truck; Workbook

2005-05

globalization defines our era while it has created a great deal of debate in economic policy and grassroots circles many aspects of the phenomenon remain virtual terra incognita education is at the heart of this continent of the unknown this pathbreaking book examines how globalization and large scale immigration are affecting children and youth both in and out of schools taking into consideration broad historical cultural technological and demographic changes the contributors all leading social scientists in their fields suggest that these global transformations will require youth to develop new skills sensibilities and habits of mind that are far ahead of what most educational systems can now deliver drawing from comparative and interdisciplinary materials the authors examine the complex psychological sociocultural and historical implications of globalization for children and youth growing up today the book explores why new and broader global visions are needed to educate children and youth to be informed engaged and critical citizens in the new millennium

2023-10-04

political crises social conflict and economic development is a rare attempt to undertake comparative political economy analysis of the andean region and thus represents a welcome contribution it is clearly written and will engage scholars interested in latin america from a wide range of disciplines jonathan di john journal of agrarian change this collection of essays on the political economy of the andean region goes to the heart of the struggle these smaller economies face in completing crucial reforms and achieving higher growth andrés solimano has brought together the best and the brightest talent from each country the result being the most compelling analysis ever of how enclave development and a historical dependence on primary exports renders these countries distinctly andean as the essays argue the political solutions and economic remedies must address this phenomenon rather than mimicking those strategies of the larger emerging market countries in the region carol wise university of southern california us the contributors to this authoritative volume analyze the impact of political crises and social conflict on economic performance in the andean region of latin america the blend of theory and case studies is also relevant for understanding other complex societies in the developing world and transition economies the book provides illuminating insights on how to understand and survive the complicated interactions between volatile politics unstable democracies violence social inequality and uneven economic performance recent

political economy theories are combined with valuable quantitative and qualitative information on presidential crises breakdowns of democracy constitutional reforms quality of institutions and social inequality and exclusion to understand actual country realities part i provides the conceptual framework and a regional perspective of the book part ii contains five political economy country studies bolivia colombia ecuador peru and venezuela written by leading scholars in the field and former senior policymakers including a former president together the chapters highlight the detrimental effects of political instability and social conflict on economic growth and stability as well as the feedback effects from poor economic performance on political instability and institutional fragility the country studies warn that narrow economic reforms that do not pay adequate attention to politics institutions and social structures are bound to fail in bringing lasting prosperity and stability to complex societies examining new and rich information on episodes of political turmoil military interventions forced presidential resignations constitutional reforms and social uprisings this book will be required reading for all those interested in the interface of politics and economic development

has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the internet quite the contrary argues jill kuhnheim in this pathfinding book which explores how recent spanish american poetry participates in the fundamental cultural debates of its time using a variety of interdisciplinary approaches kuhnheim engages in close readings of numerous poetic works to show how contemporary spanish american poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media her analysis illuminates the ways in which contemporary issues such as indigenismo and latin america s postcolonial legacy modernization immigration globalization economic shifts toward

neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of spanish american poetry since the 1970s

Spanish American Poetry at the End of the Twentieth Century

2010-07-05

this book demonstrates how discussions of political theology have been a constant feature throughout philosophical modernity and that they

continue to impact contemporary political debates by tracing the historical roots and detailing the contemporary outworking of political theology in europe it contends that this growing field requires a broader canon in order for it to mature political theology is shown here to be about the diversity of relationships between religious beliefs and political orientations first engaging with historical debates chapters re examine the relationship between personal conviction and societal orientation on such topics as the will to believe evil individualism the relationship between church and state and the relationship between belief and natural science the volume then establishes the relevance of these debates for the present day as such it invites engagement on the back and forth between religion and politics in a liberal democracy and a communist state on how communitarianism relates to religious language on the diversity of christian and jewish political theology and the politics of toleration by broadening out the field of political theology this book offers the reader a more nuanced understanding of its sustained influence on public life as such it will be of interest to academics working in political theology but also theology philosophy and political science more generally

Imagining Brazil

2007

since independence from spain a trope has remained pervasive in latin america s republican imaginary that of an endless antagonism pitting civilization against barbarism as irreconcilable poles within which a nation s life unfolds this book apprehends that trope not just as the

phantasmatic projection of postcolonial elites fearful of the popular sectors but also as a symptom of a stubborn historical predicament the cyclical insistence with which the subaltern populations menacingly return to the nation's public spaces in the form of crowds focused on venezuela but relevant to the rest of latin america and drawing on a rich theoretical literature including authors like derrida foucault lacoue labarthe nancy lyotard laclau taussig and others dancing jacobins is a genealogical investigation of the intrinsically populist monumental governmentality that in response to this predicament began to take shape in that nation at the time of independence informed by a bolivarian political theology the nation's representatives or dancing jacobins recursively draw on the repertoire of busts portraits and equestrian statues of national heroes scattered across venezuela in a montage of monuments and dancing or universal and particular they monumentalize themselves on the stage of the polity as a ponderously statuesque yet occasionally riotous reflection of the nation's general will to this day the nervous oscillation between crowds and peoplehood intrinsic to this form of government has inflected the republic's institutions and constructs from the sovereign people to the nation's heroic imaginary its constitutional texts representative figures parliamentary structures and not least its army through this movement of collection and dispersion these institutions are at all times haunted and imbued from within by the crowds they otherwise set out to mold enframe and address

The Politics of Land

2019-03-13

at the end of world war ii argentina was the most industrialized nation in latin america with a highly urbanized literate and pluralistic society but over the past four decades the country has suffered political and economic crises of increasing intensity that have stalled industrial growth sharpened class conflict and led to long periods of military rule in this book paul lewis attempts to explain how that happened lewis begins by describing the early development of argentine industry from just before the turn of the century to the eve of juan peron s rise to power after world war ii he discusses the emergence of the new industrialists and urban workers and delineates the relationships between those classes and the traditional agrarian elites who controlled the state under peron the country shifted from an essentially liberal strategy of development to a more corporatist approach whereas most writers view peron as a pragmatist if not opportunist lewis treats him as an ideologue whose views remained consistent throughout his career and he holds peron along with his military colleagues chiefly responsible for ending the evolution of argentina s economy toward dynamic capitalism lewis describes the political stalemate between peronists and anti peronists from 1955 to 1987 and shows how the failure of post peron governments to incorporate the trade union movement into the political and economic mainstream resulted in political polarization economic stagnation and a growing level of violence he then recounts peron s triumphal return to power and the subsequent inability of his government to restore order and economic vigor through a return to corporatist measures finally lewis examines the equally disappointing failures of the succeeding military regime under general videla and the restoration of democracy under president raul alfonsin to revive the free market by focusing on the organization development and political activities of

pressure groups rather than on parties or governmental institutions lewis gets to the root causes of argentina s instability and decline what he calls the politics of political stagnation at the same time he provides important information about argentina s entrepreneurial classes and their relation to labor government the military and foreign capital the book is unique in the wealth of its detail and the depth of its analysis

how can a child born in the russian pale at the end of the 19th century become one of the most celebrated journalists in latin america and a writer admired by jorge luis borges in this biography mónica szurmuk delves into the different aspects of the life of writer journalist and politician alberto gerchunoff thoroughly researched in four different continents this book is as much an account of the life of alberto gerchunoff as an investigation into the jewish world of the first half of the twentieth century and the different spaces where jewish and latin american cultural and political life intersect

Equity and Law

2008

this detailed local study of state formation in nineteenth century mexico focuses on the life of juan francisco lucas the principal indian

leader of the puebla sierra between 1854 and 1917 the book illustrates how over seventy years the indian communities of the puebla sierra through the leadership of lucas compelled their political leaders to execute the mandates of the liberal state on terms that were locally acceptable the text also provides a detailed look at the patriotism politics and popular liberalism which flourished during this period in mexican history this is the first in depth study to examine the great nineteenth century divisions between liberals and conservatives and radical and moderate liberals over an extended time period and in a rural multi ethnic setting the text also explores how these divisions reemerged during the mexican revolution the volume shows the rise of mexican nationalism and what rights and responsibilities it extended to individual mexicans and independent communities through close attention to the political and human geography of the puebla sierra professor thomson observes the continuities between the sierra s colonial past and the present and the interactions between key political individuals and a complex physical environment

Decadent Modernity

2018

this book addresses two questions firstly how has the fight against covid 19 especially the individual and collective responses of latin american nation states influenced the relationship between power people and statebodies and secondly has democracy taken a step back and allowed pandemocracy to replace its long term legitimising function adopting a global south perspective the book explores the constitutional political and institutional measures that paved the way

for several aggressive state policies in various latin american countries during the covid 19 pandemic the contributions provide a detailed review of democratic decay and the rule of law impairment in many countries of the region the book goes beyond mere observation and explores all the main theoretical elements that can lead to a more comprehensive understanding of the political and normative impact of the pandemic in terms of constitutional design and concerning the actual behaviour of political bodies the fairness and efficacy of latin american state responses during the covid 19 pandemic did not rely on civic culture executive goodwill or boldness on the part of the judges the aim of this volume therefore is to unravel the most subtle elements of a very puzzling situation multidisciplinary perspectives are deployed to explore how democratic standards and goals have been reshaped by nuanced constructions of certain atavistic normative ideas or even by non constitutional policies the book sheds light on the underlying connection between politics and law

Underdevelopment in Peru

2023-08-03

fashion has become a fertile field of study for academics across disciplines now that the rules once tightly fixed have been deconstructed this volume brings together academics from various disciplines philosophy sociology medicine anthropology psychology and psychiatry to examine fashion s complex relationship with post industrial societies herein the authors address from the standpoint of their respective disciplines what crucial functions fashion fulfils in the modern world especially as it relates to the construction and

deconstruction of the self this volume is the result of a conference held by the social trends institute at which the authors presented original papers the social trends institute is a non profit research centre that offers institutional and financial support to academics in all fields who research and explore emerging social trends and their effects on human communities the institute focuses its research on four main subject areas family bioethics culture and lifestyles and corporate governance

La migración de ideas constitucionales en la jurisprudencia de la corte constitucional colombiana

2024-04-01

this book is one of a series of volumes resulting from the world archaeological congress september 1986 which addressed world archaeology in its widest sense investigating how people lived in the past and how and why changes took place to result in the forms of society and culture which exist now the series brought together archaeologists and anthropologists from many parts of the world academics from contingent disciplines and also non academics from a wide range of cultural backgrounds who could lend their own expertise to the discussions this book is an exploration of the way in which the animal world features in the works of art of a variety of cultures of different times and places contributors have adopted a variety of perspectives for looking at the complex ways in which past and present humans have interrelated with beings they classify as

animals some of the approaches are predominantly economic and ecological some are symbolic and others philosophical or theological all these different views are included in the interpretation of the artworks of the past revealing some of the foci and inspirations of cultural attitudes to animals originally published 1989
