Clearing Services for Global Markets 2003

a comprehensive nuclear test ban treaty ctbt is the oldest item on the nuclear arms control agenda three treaties currently bar all but underground tests with a maximum force equal to 150 000 tons of tnt since 1997 the united states has held 23 subcritical experiments at the nevada test site to study how plutonium

behaves under pressures generated by explosives it asserts these experiments do not violate the ctbt because they cannot produce a self sustaining chain reaction russia reportedly held some since 1998 the u n general assembly adopted the ctbt in 1996 as of january 23 2009 180 states had signed it 148 including russia had ratified of the 44 that must ratify the treaty for it to enter into force 41 had signed and 35 had ratified five conferences have been held to facilitate entry into force most recently in 2007 in 1997 president clinton sent the ctbt to the senate in october 1999 the senate rejected it 48 for 51 against 1 present it is on the senate foreign relations committee s calendar it would require a two thirds senate vote to send the treaty back to the president for disposal or to give advice and consent for ratification the obama administration plans to seek senate approval of the ctbt followed by a diplomatic effort to secure ratification by the remaining states that must ratify for the treaty to enter into force

this book provides an introduction to test equating scaling and linking including those concepts and practical issues that are critical for developers and all other testing professionals in addition to statistical procedures successful equating scaling and linking involves many aspects of testing including procedures to develop tests to administer and score tests and to interpret scores earned on tests test equating methods are used with many standardized tests in education and psychology to ensure that scores

from multiple test forms can be used interchangeably test scaling is the process of developing score scales that are used when scores on standardized tests are reported in test linking scores from two or more tests are related to one another linking has received much recent attention due largely to investigations of linking similarly named tests from different test publishers or tests constructed for different purposes in recent years researchers from the education psychology and statistics communities have contributed to the rapidly growing statistical and psychometric methodologies used in test equating scaling and linking in addition to the literature covered in previous editions this new edition presents coverage of significant recent research in order to assist researchers advanced graduate students and testing professionals examples are used frequently and conceptual issues are stressed new material includes model determination in log linear smoothing in depth presentation of chained linear and equipercentile equating equating criteria test scoring and a new section on scores for mixed format tests in the third edition each chapter contains a reference list rather than having a single reference list at the end of the volume the themes of the third edition include the purposes of equating scaling and linking and their practical context data collection designs statistical methodology designing reasonable and useful equating scaling and linking studies importance of test development and quality control processes to equating equating error and the underlying statistical assumptions for equating

Handbook of Research and Policy in Art Education 2015-08-20
