this is the first book to explore the epistemology and ethics of advanced imaging tests in order to improve the critical understanding of the nature of knowledge they provide and the practical consequences of their utilization in healthcare advanced medical imaging tests such as pet and mri have gained center stage in medical research and in patients care they also increasingly raise questions that pertain to philosophy what is required to be an expert in reading images how are standards for interpretation to be fixed is there a problem of overutilization of such tests how should uncertainty be communicated to patients how to cope with incidental findings this book is of interest and importance to scholars of philosophy of medicine at all levels from undergraduates to researchers to medical researchers and practitioners radiologists and nuclear physicians interested in a critical appraisal of the methodology of their discipline and

in the ethical principles and consequences of their work

Macky]. 1725**

the quaker world is an outstanding comprehensive and lively introduction to this complex christian denomination exploring the global reach of the quaker community the book begins with a discussion of the living community as it is now in all its diversity and complexity the book covers well known areas of quaker development such as the formation of liberal quakerism in north america alongside topics which have received much less scholarly attention in the past such as the

history of quakers in bolivia and the spread of quakerism in western kenya it includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts global quakerism spirituality embodiment within these sections key themes are examined including global quaker activity significant quaker movements biographies of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism the quaker world provides an authoritative and accessible source of information on all topics important to quaker studies as such it is essential reading for students studying world religions christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics

the outbreak of the first world war saw an upsurge of patriotism the church generally saw the war as justified and many clergy encouraged the men in their congregations to join the army there was however already a strong strand of anti war sentiment opposed to the dominant theology of the establishment this was partly based on traditional christian pacifism but included other religious social and political influences campaigners and conscientious objectors voiced a growing concern about the huge human cost of a conflict seemingly endlessly bogged down in the mud of the flanders poppy fields subversive peacemakers recounts the stories of a strong and increasingly organised opposition to war from peace groups to poets from preachers to politicians from women to working men all of whom struggled to secure

professor kennedy s book chronicles the metamorphosis of the british society of friends from a tiny self isolated body of peculiar people into a theologically liberal spiritually vital association of activists defined by a strong social commitment and enduring pacifist ethic british quakersassumed an importance in society out of all proportion to their minuscule numbers this transformation was first and foremost the

product of a spiritual and intellectual struggle among quaker factions evangelical conservative and liberal seeking to delineate the future path of their religious society inspired by the leadership of a remarkable band of intellectually acute theologically progressive and spiritually committed men and women london yearly meeting was both reformed and revitalised during the so called quaker renaissance simultaneously embracing advanced modern ideas and reiterating their attachment to traditional quaker principles especially the egalitarian concept of the inner light of christ and a revived peace testimony liberal quakers prepared the ground for their society's dramatic confrontation with the warrior state after 1914 official quaker resistance to the great war not only fixed the image of the society of friends as britain's most authentic and significant peace church it also brought a group of talented and determined quaker women into the front lines of the society's struggle against war and conscription a position from which twentieth century female friends have never retreated quakerism emerged from the

the first world war s appalling death toll and the need for a sense of equality of sacrifice on the home front led to canada s first experience of overseas conscription while historians have focused on resistance to enforced military service in quebec this has obscured the important role of those who

saw military service as incompatible with their religious or ethical beliefs crisis of conscience is the first and only book about the canadian pacifists who refused to fight in the great war the experience of these conscientious objectors offers insight into evolving attitudes about the rights and responsibilities of citizenship during a key period of canadian nation building
