engine controllers comap

Aug 21 2024

the comap family of engine controllers offers innovative and universal system integration for a wide range of engine driven platforms and applications with a proven track record of working in the most demanding environments our engine controllers deliver unparalleled command control and communication advantages

engine management systems summit racing

Jul 20 2024

squeeze the most performance possible from your fuel injected setup with an engine management system from summit racing explore engine control computers which tune manage and regulate the input output signals as well as power adders on your vehicle s engine

electromotive engine management control performance

Jun 19 2024

world leading engine management performance ignition systems serious performance and racing enthusiasts depend on xdi ignitions and tec engine management systems everything we do is designed to maximize your street track off road or marine performance

ecu inc engineering concepts unlimited inc online store

May 18 2024

specializing in controls and monitors for engine driven portable electrical generators engine driven portable mechanical power electric power system testing electric power analysis and custom oem solution design

ignition control module standard motor products

Apr 17 2024

the ignition control module is a solid state switching device that controls the operation of the ignition coil or coils it is a small high current circuit used to ground the negative side of the coil in order to build charge

econtrols home

Mar 16 2024

econtrols is a global provider of innovative state of the art integrated solutions for internal combustion engine controls and electric drive systems in the off highway on highway and stationary equipment markets learn more about our solutions
