this book examines the relationship between the conversion theology popularized by charles grandison finney and the theological drift of baptists in the south from calvinism to arminianism it begins with a survey of the historical evidence of the calvinistic roots of baptists in the south by way of a brief overview of baptist origins in england followed by an overview of baptist life in america including the founding of the first baptist church in the colonies in the seventeenth century developments in baptist soteriology in the eighteenth and nineteenth centuries and concluding with trends that emerged in the twentieth century next an overview of the traditional or calvinistic baptist view of conversion that was the majority view prior to the mid nineteenth century which provides a brief contrast of the two predominant views held by evangelicals arminianism and calvinism and demonstrates how uncommon the views of conversion popularized in the mid to late nineteenth century had been previously the remainder of the book focuses on the conversion theology of finney and the opposition from his contemporaries by analyzing finney s rejection of reformed orthodoxy and the use of the means of grace his views that revival and conversion are of human rather than divine origin his departure from the edwardsean theological tradition he had inherited his pelagian and semi pelagian tendencies his conflation of backsliders with false professors and the fact that he propagates and popularizes existing error rather than inventing new a theology or methodology next is a survey of the effects of finney s theology on southern baptists and evangelicalism as a whole under the following headings finney s polemical rewriting of history and its impact on subsequent generations the effects of revivalism and the specific effects of finney s theology on baptists the understanding of god and his role in conversion and church practice the book wraps up with a summary of the lingering effects of finney s pelagian theology on the church today which concludes that finney s influence on baptists in the south was part of the theological shift from their calvinistic roots to arminianism as the dominant theology and ends with practical and pastoral applications for the church today

stephen j hamilton attempts to create a portrait of born again christianity by providing a general introduction to the doctrine of regeneration including its development in modernity as well as short exegeses of relevant scriptural texts followed by a close reading of four theologians philipp jakob spener jonathan edwards friedrich de schleiermacher and charles g finney who all associate the doctrine of regeneration with an experience of presence in the individual believer in light of these analyses he then traces a general theological structure of the born again understanding of regeneration including a catalogue of theological issues over which there is significant disagreement in order to create a topography of born again theologies in the final section he applies these results to contemporary conversion narratives of non theologians it is in such conversion narratives the author argues that theologians can discover an implicit lived theology that reveals how doctrines are perceived and put into practice among christians accordingly this is to be understood as the result of the creative reciprocity between often tacit theological convictions and the experiences of the christian life the final chapter as a coda to the entire work offers some concluding reflections on the present cultural and political situation in the usa pertaining to born again christianity and argues against any oversimplifications of the relationship between born again theologies culture and politics
