surviving miscarriage in the arms of an angel is my personal and professional journey through miscarriage it is a touching and sensitive look at one woman s journey my journey i am a qualified doctor of clinical psychology who has travelled into the darkness of a world void of understanding about the real anguish of miscarriage and all my training skills and insights did not ease the pain or simplify my experience the effect on my family is captured in diary notes and albums i miss you xavier you wood sic have bin sic the best brother love from lincoln captures the hole left in the lives of existing children siblings of the unborn baby drawing from my personal experience i invite the reader to meet my unborn babies emerson xavier charlie and co i share the healing journey that i travelled so that i can survive and comfort other parents in their survival silent sids is a term i coined to capture the societal misconceptions fears and absence of support for families who have lost a baby miscarriage is likened to the social silence that often surrounds sudden infant death syndrome sids in that a baby has died suddenly and from unknown causes and whose death is surrounded by silence the muteness of family and friends society and the medical profession you will hear my husband himself a medical surgeon referring to our baby s corpse as interesting pathology museum specimen but not our baby i bring the reader face to face with my story of grief and the isolation that surrounded my miscarriage of xavier s pregnancy in hong kong where english was not the first language a trained english speaking australian obstetrician was near impossible to find in a private hospital and my husband tony as well as my own private obstetrician were back home in australia the ugliness of grief is shared in all its nakedness the plea i want to die to be with xavier the aimless staring without thought or motivation and the horror of tearing the baby in half will tug at the heartstrings of even the toughest of readers and later an embryo is created in the lab is that science fiction or is it a desperate willingness to do anything humanly scientifically and medically possible to have a baby the journey through in vitro fertilisation began and six precious cells were made at the start of life an obsessive drive to fill the cavernous aching void in my heart was ivf then along came the fear of loving william in case he too left me miscarriage is the startling outcome of one in four pregnancies why i interrogated god for answers i demanded to know why a baby is created and given only to be torn away i asked if it is some cruel sick joke the professional audience is also invited to view some of the most up to date grief and loss theories to promote a better understanding of the miscarriage experience my intention is that the professional support of women and their families in this situation will become real and meaningful instead of sterile and insensitive beautiful ideas about gardens and pastel drawings poems and jewellery are offered to women to help them acknowledge their baby bring their baby to life and keep their memory alive personal photographs and diary entries are shared with the reader to comfort and validate the experience of miscarriage the exclusive club that no one really wants to join because the joining fee your baby has to die is very expensive and has no perks like other clubs no discounts no christmas party only shared pain and sadness occasionally though the club s members offer support and comfort to each other and in that regard it s worth joining if you meet the eligibility criterion the book also provides a special look at how fathers grieve and the difference where women cope by talking and crying and men cope by working and providing practical supp

understanding miscarriages of justice explores a paradox in a society in which justice is uncertain and contested how can we talk meaningfully about miscarriage of justice the book examines the structural conditions that inevitably produce high profile miscarriages of justice the thesis of the book is that there is a tension between the rhetoric of justice as understood outside of law particularly in the media and legal practice despite evidence that miscarriages of justice must be a normal and expected consequence of imperfect arrangements for investigations prosecutions and trials they are ordinarily understood as exceptional and unacceptable events periodically however miscarriages are seen not as exceptional but widespread and normal at such moments the legitimacy of the criminal justice process is called into question in the media these moments are constructed in the media as a crisis of public confidence in criminal justice with the mass media s vivid interest in crime and punishment and their relentless reconstruction of relevant facts the courts fact finding monopoly is fundamentally contested while this happens in all phases of a criminal process the contest becomes particularly dramatic when after a criminal conviction the mass media continue their investigation and discover according to their criteria of truth a miscarriage of justice but there is no set of common criteria that would allow for the design of rational procedures to end the contest there is no forum no procedure and no set of criteria that would make possible a common search for truth

essay from the year 2015 in the subject law penology grade 81 university of the west of england bristol course forensic computing and security language english abstract this essay examines the role of expert evidence in court decisions and subsequent miscarriage of justice to this end it takes a look at the case of sally clark who was initially convicted for murdering her two infant children and later cleared of the charges a miscarriage of justice is an ambiguous phase that is capable of instigating many distinctive meanings interpreted and influenced by life experiences the widely considered definition is a failure to attain justice however this undermines the criminal justice system who robustly endeavours to convey justice for all by convicting the guilty and protecting the innocent unfortunately this ambition is belittled by the never ending statistic that defendants are still being wrongfully imprisoned this is because some experts are culprits of fabricating and concealing evidence sally clark s trial replicates similar characteristics

a miscarriage of justice examines women's reproductive health in relation to legal and medical policy in rio de janeiro brazil after the abolition of slavery in 1888 and the onset of republicanism in 1889 women's reproductive capabilities their ability to conceive and raise future citizens and laborers became critical to the expansion of the new brazilian state analyzing court cases law medical writings and health data cassia roth argues that the state's approach to women's health in the early twentieth century focused on criminalizing fertility control without improving services or outcomes for women ultimately the increasingly interventionist state fostered a culture of condemnation around poor women's reproduction that extended beyond elite discourses into the popular imagination by tracing how legal thought and medical knowledge became cemented into law and clinical practice how obstetricians public health officials and legal practitioners approached fertility control and how women experienced and negotiated their reproductive lives a miscarriage of justice provides a new way of interpreting the intertwined histories of gender race reproduction and the state and shows how these questions continue to reverberate in debates over reproductive rights and women's health in brazil today

the women in these stories share their difficult emotions honestly from their times of miscarriage as god moves in their lives the stories can be used to heal and help others miscarriage is never easy but so often not acknowledged yet in god we trust in his hands we entrust what we have lost and in his heart we find healing as he is with us also included are scripture and prayers to help you through your difficult time people react to a miscarriage in different ways some will bounce right back others will pretend nothing has happened but i wanted my sadness and loss acknowledged a simple card a hug a meal delivered these were the things that meant the most i was awed by god's hand though i didn't understand his purposes i was determined not to suffer in silence like many women who find out they're pregnant i wanted to wait until the magic 12 weeks had passed before i shared my news because the miscarriages occurred earlier than that though few people knew that i was expecting as a result i did not feel that i was able to share my loss for me miscarriage was silently endured and ultimately became a very isolating experience each miscarriage also left me doubting my faith i couldn't help but ask why god

is dai morris a brutal murderer or the victim of a terrible miscarriage of justice author and former solicitor john morris investigates the clydach murders which occurred in 1999 for which dai morris was convicted in 2006 in a case which shocked the country mandy power her bed ridden mother and her two young daughters were battered to death the crime sparked a huge investigation yet the police made little progress this widely researched book contends that morris convicted for the murders in 2006 is a scapegoat an innocent man against whom justice was miscarried no forensic evidence or dna connected him to the crime he was convicted because he lacked of a solid alibi because his gold chain was found in power's house and because as a man with a criminal record he initially lied to the police morris's case is to be heard in the court of appeal probably in 2018 in the light of new evidence including dna testing and falsification of police documents south wales police was notorious in the period 1980 to 2010 for false convictions on fabricated evidence significantly previous suspects for the clydach murders include former police officers one of whom was having a lesbian affair with mandy power there is every possibility that dai morris has suffered a miscarriage of justice the author studied the police files and court papers and discussed the case with key witnesses and experts he is convinced that morris is the victim of a conspiracy to falsely convict the brutal murder of an entire family is a horrible thing but to compound it with an unsafe conviction shows a disrespect to the victims to their relatives to the family of dai morris and to the law this new edition includes a short postscript of new evidence generated by the original book which casts even further doubt on the safety of the conviction of dai morris

we lost our baby is the true story of a young couple who after the initial excitement of discovering a new pregnancy faced the heartache of losing their baby on top of the trauma of a miscarriage they also had to deal with insensitive and sometimes rude doctors and nurses outdated hospital policies and a shocking lack of empathy and understanding during the worst times of this tragedy angry and confused they went looking for answers they found none there were no books to help them with the emotional upheaval they were going through there were no explanations from the hospital as to why they had lost their baby and the counselling on offer was largely ineffective what followed was an awkward few months where they could not grieve together and their relationship was severely strained it was not just their relationship with each other that was affected family and friends who did not know how to deal with the situation also became isolated from them realising that communication was the key to getting through this sorrowful time they finally started talking and found a way to get their relationship back on track they also found that if they spoke honestly and openly to family and friends they could get those relationships back as well knowing that other couples who have lost a baby would be going through similar difficulties they decided to write down their experience in an effort to help them their beautifully written and poignant story dealing with an issue that is too rarely
