Microeconomics 2011 people pursue their own interests whatever those interests might be some people have interests that are narrow and selfish while others have interests that are broad and altruistic the idea that people are self interested underpins all of economic analysis and raises two fundamental questions 1 how do people choose the actions they think will further their own interests 2 can the potentially conflicting interests of different people be made to mesh in some sort of socio economic equilibrium this book is devoted to a detailed study of the first question its companion volume economy wide microeconomics equilibrium optimality applications and tests makes a detailed study of the second question following some foundational remarks this book studies the arrow debreu theory of consumer choice that theory supposes people choose so as to maximize a complete continuous transitive and reflexive binary preference relation over a non empty and compact choice set the book then studies numerous refinements generalizations and extensions of each of these restrictions up to and including recent work on behavioral theories of choice and choice behaviour when preferences are intransitive incomplete discontinuous also considered is choice behaviour in environments that are not necessarily compact a study is also made of intertemporal choice and choice under uncertainty the study of arrow debreu choice theory and its extensions are presented from the primal dual and revealed preference points of view consumers are not the only agents in the economy as producers are present as well beginning with a study of the arrow debreu idea that producers choose from a convex production set so as to maximize profit the book considers extensions and generalizations of this framework particularly to nonconvex environments the study is presented from the primal and dual points of view the final chapter in the book provides a link to its companion volume the chapter indicates how the theories of consumer and producer choice studied here help inform answers of the second question posed above resources are available to instructors who adopt this book more details at worldscientific com worldscibooks 10 1142 12789 sm

Im Intermediate Microeconomics 2007-01-01 despite rich archives of work on race and the global economy most notably by scholars of colour and global south intellectuals the discipline of political economy has largely avoided an honest confrontation with how race works within the domains it studies not least within markets by way of corrective this book draws together scholarship on the material function of race at various scales in the global political economy the collective provocation of the contributors to this volume is that race has been integral to the formation of capitalism as extensively laid out by the racial capitalism literature and takes on new forms in the novel market spaces of neoliberalism the chapters within this volume also reinforce that the current political conjuncture marked by the ascension of neo fascist power cannot be defined by an exceptional intrusion of racism nor can its racism be dismissed as epiphenomenal raced markets will be of great value to scholars students and researchers interested in political economy and racial capitalism as well as those willing to explore how race takes on new forms in the novel market spaces of contemporary neoliberalism the chapters in this book were originally published as a special issue of the new political economy

□□□□□□□ 2001-01 women have made huge advances relative to men in the labor force occupational status and educational attainment but women continue to earn less than men while the gender pay gap has narrowed a substantial gap remains sex discrimination in the labor market examines sources of this pay disparity and the factors that contribute to this gap whether sex discrimination plays a role in the gender pay gap is a topic of considerable debate many researchers question the role of discrimination and attribute the residual pay gap to gender differences in preferences especially with respect to balancing work with family responsibilities sex discrimination in the labor market shows that sex discrimination contributes to the unexplained gender pay gap which is consistent with high profile sex discrimination litigation suggesting continuing bias in the labor market on the basis of sex  $\square\square\square\square\square$  1999-06 surveys the contributions that economic theory has made to the often contentious debate over the government s use of its power of eminent domain as prescribed by the fifth amendment it addresses such questions as when should the government be allowed to take private property without the owner's consent does it depend on how the land will be used also what amount of compensation is the landowner entitled to receive if any the recent case of kelo v new london 2005 revitalized the debate but it was only the latest skirmish in the ongoing struggle between advocates of strong governmental powers to acquire private property in the public interest and private property rights advocates written for a general audience the book advances a coherent theory that views eminent domain within the context of the government s proper role in an economic system whose primary objective is to achieve efficient land use

Der Wunsch nach mehr Zusammenarbeit in der Patientenversorgung 2015 controversies over the merits of public and private education have never been more prominent than today this book evaluates public and private schooling especially in regard to choices families must make for their children while choice among publics schools is widely advocated today by families and states public support for private education including vouchers tax credits charter schools and private contracting is politically controversial the authors accessibly describe what research shows as to the effects for communities and children of these approaches they move beyond school choice to show how other factors most notably the family have a strong effect on a child's educational success the book helps educators and parents better understand the rapidly changing educational environment and the important choices they make in educating the nation's children
