john gibson is one of the fox news channel s most outspoken personalities now as the aftershocks of the war in iraq reverberate around the world gibson exposes the outrageous tenor of anti american sentiment filling newsprint and airwaves beyond our borders and how disagreements over policy have mushroomed into poisonous hatred i loathe america and what it has done to iraq and the rest of the helpless world margaret drabble british novelist from the arab street to the halls of even the most historically friendly foreign governments extreme anti americanism has grown disturbingly pervasive throughout the world since the shell shocking moment of 9 11 over the year that followed gibson writes i began to watch the overseas press with a morbid fascination punctuated by bursts of outrage the things that were being said about america and americans were marked by an off the charts level of venom a scandalous parade of mistaken assumptions an endless font of suspicion mistrust and the promulgation of outright willful lies the viciousness of commentary on america was breathtaking damn americans hate those bastards carolyn parrish canadian parliament member and

as gibson traces the hate speech has gone well beyond the usual suspects in the middle east infecting our erstwhile allies in europe asia and even canada british prime minister tony blair complained that some of the rhetoric i hear used about america is more savage than some of the rhetoric i hear about saddam and the iraqi regime presumptuous belgian officials attempted to bring american officials up on war crimes charges and special hatred was reserved for president george w bush whom one australian newspaper dismissed as the village idiot as america defends its security in the ongoing war on terror gibson argues we must be prepared to face this growing tide of resentment abroad which will only result in serious consequences for the haters themselves for the anti americans he argues would like us to forget that those who hate us may eventually try to kill us because they now know that we will never allow that to happen without exacting a price on those who would attempt it

when aldous huxley wrote his famous novel brave new world he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social political and economic world order written almost thirty years later brave new world revisited is a re evaluation of his predictions based on the changes he had witnessed in the meantime in this twelve part essay huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed and provides his own suggestions on how to bring an end to this decadent decline brave new world revisited condemns symptoms of modern life such as overpopulation propaganda and extreme government control while providing a staunch defence of individualism despite being published over fifty years ago the problems identified in brave new world revisited are still startlingly relevant lending a chilling creditability to aldous huxley s unsettling predictions harper torch brings great works of non fiction and the dramatic

taxation in utopia explores utopian political philosophy from the neglected perspective of taxation at its core taxation is an ethical question it requires people to sacrifice for the benefit of others whether or not they also benefit themselves donald morris refers to this broader nonmonetary context as constructive taxation which includes restrictions on privacy and access to information constraints on marriage and child rearing and conventions restricting the proprietorship of land morris examines this in the

context of various utopian writings such as more s utopia as well as literary treatments of these issues such as bellamy s looking backward this interdisciplinary exploration of utopian taxation provides a novel approach to examining relations between a state s view of the general welfare and the sacrifices this view requires of its citizens

bound to be free explores the scriptural concepts of church ekklesia freedom eleutheria and truthful speech parrhesia showing not only that the proper meanings of three concepts interpenetrate one another but also that rending them asunder lies at the root of christian division today according to reinhard hutter the crucial interrelationship of these three concepts has long been obscured by ongoing church division separated from each other many christians assume that freedom can be maintained and truthful speech preserved only at the cost of unity others assume that christian unity can be attained only if freedom and truthful speech are narrowly circumscribed in their proper

exercise christian division issues from the all too familiar individualistic accounts of church freedom and speech that have haunted modernity and clouded the proclamation of the gospel this book shows that here at the beginning of the twenty first century it is imperative that christians attend to this crucial interrelationship and its source in the god of the gospel hutter discusses the meaning role and importance of each concept in turn engaging along the way a wide range of classical and contemporary voices in theology philosophy and culture that reveal in different ways how church freedom and truthful speech support one another bound to be free is a groundbreaking work that challenges common approaches to ecumenism and points a fruitful new course ahead

the principal doctrines defining mormonism today often bear little resemblance to those it started out with in the early 1830s this book shows that these doctrines did not originate in a vacuum but were rather prompted and informed by the religious culture from which mormonism arose early mormons like their early christian and even earlier israelite predecessors brought with them their own varied culturally conditioned theological presuppositions a process of convergence and only later acquired a more distinctive theological outlook a process of differentiation in this first of its kind comprehensive treatment of the development of mormon theology charles harrell traces the history of latter day saint doctrines from the times of the old testament to the present he describes how mormonism has carried on the tradition of the biblical authors early christians and later protestants in reinterpreting scripture to accommodate new theological ideas

while attempting to uphold the integrity and authority of the scriptures in the process he probes three questions how did mormon doctrines develop what are the scriptural underpinnings of these doctrines and what do critical scholars make of these same scriptures in this enlightening study harrell systematically peels back the doctrinal accretions of time to provide a fresh new look at mormon theology this is my doctrine will provide those already versed in mormonism s theological tradition with a new and richer perspective of mormon theology those unacquainted with mormonism will gain an appreciation for how mormon theology fits into the larger jewish and christian theological traditions

henri nouwen wisely said the great illusion of leadership is to think that man can be led out of the desert by someone who has never been there jesus has been there and knows how to lead us out but first he just may lead us in he meets us in the desert and does his best work in us there we look for an easier way in vain i myself reluctantly entered the desert and eventually received unimagined gifts there gifts i didn t ask for deserve or want gifts hidden in such painful loss that i despaired and yet looking back now these desert gifts were the best thing that ever happened to me i entered the desert and years later found my way out it s not a new way it was just new to me jewish and christian sages had been living it for thousands of years somehow in recent generations we managed to forget it in this collection i mean to begin to make those riches available to you i m hoping that like me you ll discover something that you didn t know you wanted or needed and something now you wouldn t give up at any price
