vast literature on counterinsurgency theories and tactics we still lack reliable information about the motivations and aspirations of the residents of tribalised rural muslim environments trmes that make up most of afghanistan the aim of this book is to describe some on the ground problems of counterinsurgency coin efforts in trmes specifically in rural afghanistan and then to propose how these efforts might be improved along the way it will be necessary to challenge many current assumptions about the conduct of counterinsurgency in afghanistan most generally the book will show how counterinsurgency succeeds or fails at the local level at the level of tactical decisions by small unit leaders and that these decisions cannot be successful without understanding the culture and perspective of those who live in trmes although engaging issues of culture the author is not an anthropologist or an academic of any kind he is a muslim who spent his childhood in a trme a remote village in turkey and he offers his observations on the basis of 15 years worth of field experience as a turkish special forces officer serving in rural iraq turkey kazakhstan kyrgyzstan and afghanistan cultures in these areas are not the same but there are sufficient similarities to suggest some overall characteristics of trmes and some general problems of coin efforts in these environments in summary this book not only challenges some of the fundamentals of traditional counterinsurgency wisdom and emphasizes the importance of the tactical level a rarely studied field from the coin perspective but also blends the firsthand field experiences of the author with deep analyses in this sense it is not solely an autobiography but something much more

failure raises the specter that other middle class societies could also fail in argentina maclachlan delivers history with a plot a sense of direction and purpose and fascinating conclusions that reveal a much more complex picture of argentina than one might have had in mind prior to reading this book argentina traces the roots of the nation from the late colonial period to the present and examines the impact of events that molded it the failure of political accommodation in 1912 the role of the oligarchy the development of a middle class gender issues the elaboration of a distinct culture the era of peron the army and the dirty war the conclusion suggests the reasons for the nation s difficulties the imf world bank and international financial markets play a role but so does a high level of political corruption and mismanagement of the economy that emerged from political and economic failure juan and eva peron tried to override politics to create an economic and social balance between urban labor and agriculture interests but failed the dirty war arose from that failure nationalism forged a culture of victimization and resentment that continues to this day laying aside standard explanations maclachlan presents a portrait of argentina that emphasizes the role of a destructive nationalism and a form a corruption that turns citizens into clients
