the overlapping worlds of gods and men collide in the concluding volume of an epic fantasy trilogy set in cold harsh arctic lands in the northlands of davvieana power rests in the hands of the high priest of the order of believers but his earthly supremacy is contested those few piijkij that remain continue to honor the oath of the brethren of hunters protect the olmmoš people from danger this time however it is not the immortal jápmemeahttun who represent a threat to human freedom but their own kind against insurmountable odds this small band of dedicated men will use any and all means open to them to bring down the man who betrayed them all the struggles of men however mean little to the immortals beyond the veil in the song of all vanquished facing a doomed existence any hope for a future slowly slips away as the best efforts of dárja and marnej prove inadequate when they both fail to safeguard those closest to them the bond between these two unlikely allies forged by necessity and emboldened by a tentative passion may not be enough to overcome the secrets and lies that have shadowed their

lives when betrayal and shame guide the future the outcome can be treacherous for both humans and immortals to find their way forward they must seek out those who offer an unprecedented vision over a quest for power

do you believe aliens created the human race don t believe in alien intervention read the book and see the evidence for yourself legacy of the gods will make you rethink what you think you know the human race has altered the evolutionary process of apples tomatoes rice corn and nearly every food we eat today genetically modified we have genetically modified mammals from mice to cats and dogs we have genetically modified livestock including goats pigs and cattle the most important genetic modification in an animal so far was done in a japanese lab in 2009 the japanese scientists successfully altered the genes of the primate species marmosets this is what was done to our primate ancestors more than 200 000 years ago we have changed or manipulated the dna of living plants and animals in labs around the world the manipulation of the natural evolutionary process of lower life forms on our planet has not always been to enhance our food supply this research is sometimes simply just that scientific research so why is it so hard to believe that an alien race may have altered our evolution when we are doing the exact same thing today in the name of science the belief in an invisible magical super being we call god or the belief in a more advanced species of mammals similar to us from one of the countless other planets in the universe a fresh look at an old question who created the human race a magical invisible god or a touchable living creature hundreds of quotes from the holy bible ancient sumerian egyptian and indian text with 100 photos to illustrate the authors view point did many stories in the holy bible originate in ancient mesopotamia the old testament spawned three of the most powerful religions this planet has ever known were they based on a

belief in aliens instead of gods perhaps it is time we took a new look at an old book

includes pictures includes ancient accounts includes online resources and a bibliography for further reading to the ancient egyptians as was the case with any society made up of inquiring humans the world was a confusing and often terrifying place of destruction death and unexplained phenomena in order to make sense of such an existence they resorted to teleological stories giving a phenomenon a story made it less horrifying and it also helped them make sense of the world around them unsurprisingly then the ancient egyptian gods permeated every aspect of existence given the abundance of funerary artifacts that have been found within the sands of egypt it sometimes seems as though the ancient egyptians were more concerned with the matters of the afterlife than they were with matters of the life they experienced from day to day this is underscored most prominently by the pyramids which have captured the world s imagination for centuries thus it s little surprise that osiris was one of the most important gods in the egyptian pantheon and he could well be the most famous of the egyptian gods today aside from the ubiquity of the sun god re in much of modern popular culture it is osiris who captivates the minds of modern readers most his story is both familiar and strangely alien he is the god of the dead but he became so by the very fact of his mortality all the gods of ancient egypt were capable of dying but osiris was also a symbol of resurrection not unlike christ in christian theology osiris was betrayed by somebody close to him in this case his brother seth and was murdered and reborn but here is where osiris and christ part ways osiris s death is brutal and his resurrection is the product of his wife isis s love for him furthermore osiris was associated with the kings of egypt because the egyptians believed he was a king himself the ancient egyptians could trace their kings back one by one to a time when the gods were believed to have ruled the land in person osiris was the third or fourth successor to the egyptian throne after creation and the egyptians believed that osiris s connection with kingship is what allowed their kings to be reborn in a way themselves he was also said to be physically enormous almost 15 and a half feet according to some sources which was said to have aided him in his military campaigns despite his grotesque appearance it s likely that his green and black skin coloration was an early attempt at depicting putrefaction osiris was the epitome of hope and renewal his skin later came to represent the lush green of the crops around the Nile and the fertile black land they grew out of nearby he was often shown as a mummified king sitting on a throne with the flail of a pharaoh and the crook of a shepherd since he was the shepherd of people to the land of the dead duat in fact although osiris was said to be capable of sending

demons to the world of the living he was generally considered to be a benevolent king of the underworld depending on the phenomenon or feeling the ancient egyptians experienced there was a corresponding deity and a story to explain the connection acclaimed egyptologist garry shaw described this ethos as an endless repetition of creations destructions and rebirths entangled in a net of divine interactions each person living as the hero of his own mythic narrative each day in this way the ancient egyptian would assimilate themselves with the corresponding deity that defined their situation at any given time osiris the history and legacy of the ancient egyptian god of the dead looks at the mythology surrounding one of antiquity's most famous deities along with pictures depicting important people places and events you will learn about osiris like never before

includes pictures includes ancient accounts includes online resources and a bibliography for further reading when nephthys gave birth to anubis isis treated the child as if it were her own for nephthys is that which is beneath the earth and invisible isis that which is above the earth and visible and the circle which touches these called the horizon being common to both has received the name anubis and is represented in form like a dog for the dog can see with his eyes both by night and by day alike to the ancient egyptians as was the case with any society made up of inquiring humans the world was a confusing and often terrifying place of destruction death and unexplained phenomena in order to make sense of such an existence they resorted to teleological stories giving a phenomenon a story made it less horrifying and it also helped them make sense of the world around them unsurprisingly then the ancient egyptian gods permeated every aspect of existence given the abundance of funerary artifacts that have been found within the sands of egypt it sometimes seems as though the ancient egyptians were more concerned with the matters of the afterlife than they were with matters of the life they experienced from day to day this is underscored most prominently by the pyramids which have captured the world s imagination for centuries thus it s little surprise that anubis was one of the most important gods in the egyptian pantheon the image of anubis with his jet black jackal s head downturned in merciless judgment continues to inspire artists and neo pagans today there is something about this somber figure that has made him stand the test of time and allowed him to survive while so many gods and goddesses have fallen from memory in the wake of newer religions that are aided by a more interconnected world perhaps it is because anubis is associated with death or maybe it s because the lack of references to him in egypt s literary and archaeological record invites multiple interpretations it also may be due to his appearances in the most emotive works of ancient egyptian art notably the vignettes from tombs depicting the mysterious journey of the dead which beckon viewers to imagine an unearthly poetic view of death so far removed from modern conceptions in a sense anubis is both awful and majestic to the ancient egyptians however anubis evolved over millennia and even though his image may strike fear into modern hearts in ancient times his appearance was somewhat comforting to those who feared the invisible spirits inhabiting all things beside the Nile just as the dog is today a figure of protection against violence and trespass so too was anubis a figure whose fearsome aspect was a source of comfort for those following the code of their religion ensuring their piety would be defensible in the hall of justice at the end of their lives how his image was taken up by later cultures ones who were not acolytes of the ancient egyptian religion is fascinating and a testament to human imagination anubis the history and legacy of the ancient egyptian god of the afterlife looks at the god that had such a decisive impact on the egyptians concepts of death and afterlife along with pictures depicting important people places and events you will learn about anubis like

includes pictures includes ancient accounts includes online resources and a bibliography for further reading on the third day typhon seth was born but not in due season or manner but with a blow he broke through his mother s side and leapt forth for this reason the kings considered the third of the intercalated days as inauspicious and transacted no business on that day nor did they give any attention to their bodies until nightfall plutarch on isis and osiris africa may have given rise to the first human beings and egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later from the library and lighthouse of alexandria to the great pyramid at giza the ancient egyptians produced several wonders of the world revolutionized architecture and construction created some of the world s first systems of mathematics and medicine and established language and art that spread across the known world with world famous leaders like king tut and cleopatra it s no wonder that today s world has so many egyptologists to the ancient egyptians as was the case with any society made up of inquiring humans the world was a confusing and often terrifying place of destruction death and unexplained phenomena in order to make sense of such an existence they resorted to teleological stories giving a phenomenon a story made it less horrifying and it also helped them make sense of the world around them unsurprisingly then the ancient egyptian gods permeated every aspect of existence in the first dynastic period there is a symbolic depiction of the earliest form of kingship the symbol consisted of the two ladies and two lords the ladies were the goddesses nekhbet and wadjyt who represented the upper and lower kingdoms of egypt each with her crown of either white or red the two lords were the conflicting gods horus and seth the contention between these two gods was transmuted into real world conflict when during the second dynasty king peribsen chose to put the mysterious seth animal above his name thus favoring one of the two lords over the other peribsen kept this close association with seth betraying the earlier kingly association with horus until king khasekhemwy dethroned him and placed both gods animals above his own name and declared the two lords are at rest the modern historian geraldine pinch suggests that this is a very early example of the egyptians tendency to mythologize their real world conflicts a trait the egyptians would continue well into their long history it s true that the vast history of egypt can only be given a cursory view at any one time but in the case of its myths just enough to contextualize the story can be sufficient to understand the progression of a deity like seth through the millennia in fact the development of seth s character throughout history is possibly one of the most fascinating and divisive among the egyptian deities beginning as one of the two lords seth s pre eminence among the gods continues well into the later dynasties as he never loses his place among the principal nine deities known as the ennead despite his nefarious dealings with his brother osiris his sister and sister in law isis and his nephew their son horus at first glance it is easy to see how seth came to be vilified as a kind of demon or devil but with an understanding of the belief structure he was born out of modern readers can see that this divisive god was much more complex than a mere adversary seth the history and legacy of the ancient egyptian god who killed osiris to usurp the throne looks at the mythology surrounding

one of antiquity's most famous deities along with pictures depicting important people, places, and events you will learn about Seth like never before

Our Legacy

2018-06

Investigative historian Andrew Collins unlocks the secrets of the pyramids to discover who really built them and how evidence shows that they actually date back at least 5000 years before the coming of the pharaohs. So what was this mysterious lost civilization that erected these strange monuments and what alien technology did they use? How does this link up with the stories in the Old Testament which have previously been regarded purely as myths? What happened to this advanced civilization which existed before recorded history and the extraordinary technology of the Elder Gods? Did remnants of their culture survive into the 20th century in other remote parts of the world and what great secrets await discovery in the hall of records beneath the Giza Plateau?

God is real, alive, and very active in the lives of people all across the earth today. He has invited us to come boldly into His presence to make our needs and petitions known to Him. He is able to make a way where there is no way today as much as ever. My wife Angie and I have always believed that and determined from the beginning of our marriage that we would look to God first in every situation. We faced our desire to experience God's stories so our lives would glorify Him and be a living testimony of His greatness in a world that attempts to undermine faith in God. This book chronicles the most obvious and amazing answers to prayer in our lives so far. Of course, we know that there are many more stories that are equally important but more mundane and ordinary. He has healed us to the amazement of the doctors involved. He has worked miracles of provision in our lives. He has protected us and guided our steps. He has been the great Shepherd in our lives. Our hope is that this book will inspire you to carry all your needs to Him in prayer and live in expectation of His divine activity in your life. He wants to make your life a living testimony as well. We hope you will be inspired to recognize the God stories in your own life and build a legacy of faith that is passed on to your children and grandchildren.

includes pictures includes ancient accounts includes online resources and a bibliography for further reading africa may have given rise to the first human beings and egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later from the library and lighthouse of alexandria to the great pyramid at giza the ancient egyptians produced several wonders of the world revolutionized architecture and construction created some of the world s first systems of mathematics and medicine and established language and art that spread across the known world with world famous leaders like king tut and cleopatra it s no wonder that today s world has so many egyptologists to the ancient egyptians as was the case with any society made up of inquiring humans the world was a confusing and often terrifying place of destruction death and unexplained phenomena in order to make sense of such an existence they resorted to teleological stories giving a phenomenon a story made it less horrifying and it also helped them make sense of the world around them unsurprisingly then the ancient egyptian gods permeated every aspect of existence isis first appears during the period of old kingdom ca 2660 2190 bce but only later does she take on her most famous role of being a sister wife of osiris originally she is simply the mother of horus and the details surrounding his conception are more obscure her absence in the original myths about osiris is confirmed by the fact that her appearances at abydos a famous cult center of osiris are scarce until the new kingdom ca 1549 1069 bce in fact isis had no known cult center throughout the majority of ancient egyptian dynastic history though it didn t seem to have a negative effect on her worship isis was one of the nine principal deities of the egyptian pantheon called the ennead and her hieroglyph was the throne a glyph that would later connect her with osiris whose hieroglyph was a throne and an eye and royalty in general in fact as the goddess of the throne she came to represent the mother of all the kings of egypt regardless of her royal attributes however isis was fundamentally a healer and a peacemaker nevertheless as time went on and egypt became more influenced by the outside world greece and rome in particular isis came to be seen as the wrathful protector of egypt and its kings according to the sources she was cleverer than millions of gods and more capable of protecting the country than millions of soldiers what is most fascinating about isis is the agency she has in her myths particularly the most famous that of the death and rebirth cycle of osiris in this myth she even demonstrates traits of the female trickster which is considerably less common in world mythology than the male equivalent according to one new kingdom source isis transformed herself into an old woman in order to fool the divine ferryman between the worlds of the living and the dead and she also turned herself into a young woman in order to get seth to admit that his claim for power was unjust all the while she created cultural and geographical mainstays such as the Nile while being worshipped as a helper goddess it is curious that until the 30th dynasty isis was worshipped in the temples of other gods as she did not have a dedicated cult center of her own during the 30th dynasty this changed with two large temples built in her honor in the Nile delta later on the ptolemaic and roman rulers of egypt would develop these sites and her worship would outlive the draconian abolishment of pagan religion in egypt and would even be

transported out of egypt as isis was revered and worshipped at the farthest reaches of the roman empire
