Authenticity in Culture, Self, and Society 2016-12-05 across sociology and cultural studies in particular the concept of authenticity has begun to occupy a central role yet in spite of its popularity as an ideal and philosophical value authenticity notably suffers from a certain vagueness with work in this area tending to borrow ideas from outside of sociology whilst failing to present empirical studies which centre on the concept itself authenticity in culture self and society addresses the problems surrounding this concept offering a sociological analysis of it for the first time in order to provide readers in the social and cultural sciences with a clear conceptualization of authenticity and with a survey of original empirical studies focused on its experience negotiation and social relevance at the levels of self culture and specific social settings

Understanding Society Through Popular Music 2013 written for introductory sociology and sociology of popular music courses the second edition of understanding society through popular music uses popular music to illustrate fundamental social institutions theories sociological concepts and processes the authors use music a social phenomenon of great interest to draw students in and bring life to their study of sociology the new edition has been updated with cutting edge thinking on and current examples of subcultures politics and technology

The Art of Symbolic Resistance 2013-09-12 against the background of the Ürümchi riots july 2009 this book provides a longitudinal study of contemporary uyghur identities and uyghur han relations previous studies considered china s uyghurs from the perspective of the majority han state or people conversely the art of symbolic resistance considers uyghur identities from a local perspective based on interviews conducted with group members over nearly twenty years smith finley rejects assertions that the uyghur ethnic group is a creation of the chinese state suggesting that contemporary uyghur identities involve a complex interplay between long standing intra group socio cultural commonalities and a more recently evolved sense of common enmity towards the han this book advances the discipline in three senses from a focus on sporadic violent opposition to one on everyday symbolic resistance from state to local representations and from a conceptualisation of uyghurs as victim to one of creative agent

Paradoxes of Authenticity 2014-03-31 london 1820 the british capital is a metropolis that overwhelms dwellers and visitors alike with constant exposure to all kinds of sensory stimulation over the next two decades the city s tumult will reach new heights as population expansion places different classes in dangerous proximity and ideas of political and social reform linger in the air london begins to undergo enormous infrastructure change that will alter it forever it is the london of this period that editors roger parker and susan rutherford pinpoint in this book which chooses one broad musical category voice and engages with it through essays on music of the streets theaters opera houses and concert halls on the raising of voices in religious and sociopolitical contexts and on the perception of voice in literary works and scientific experiments with acoustics emphasizing human subjects this focus on voice allows the authors to explore the multifaceted issues that shaped london from the anxiety surrounding the city s importance in the musical world at large to the changing vocal imaginations that permeated the epoch capturing the breadth of sonic stimulations and cultures available and sometimes unavoidable to residents at the time london voices 1820 1840 sheds new light on music in britain and the richness of london culture during this period

London Voices, 1820-1840 2019-12-09 the politics of authenticating revisiting new orleans jazz sets forth an entirely new approach to the study of authenticity based not upon a search for finding the true meaning of the concept or unmasking its claims rather it details a grounded theory of authenticating as a basic socio political process important in understanding the origins development and consequences of competing knowledge claims in diverse areas of human experience and activity over time and place the book is part jazz historiography part autoethnography and part memoir it details richard ekins revisiting of the quest for authenticity in the social worlds of international new orleans revivalist jazz from the early 1960s onwards from his standpoint as a social constructionist social scientist and cultural theorist the book grew out of a series of long detailed

conversations between ekins and his interlocutor robert porter and captures the energy and dynamism of these exchanges in the writing of the text providing what the authors call a riff methodology that might be drawn on by other scholars concerned to write books that revisit aspects of their personal and professional lives

stimulation of plasma membrane redox activity by external oxidants under scores a potential role of plasma membrane oxidoreductases in growth control other experiments with isolated endosomes indicate emerging roles in endocytosis and lytic processes primary attention was focused on trans plasma membrane electron transport which brings about the oxidation of cytosolic nadh nadph or other substrates by electron flow across the plasma membrane to external oxidants including ferric iron semide hydroascorbate or oxygen a major theme in the workshop was the relation of this electron flow to ph changes of the cytoplasm or the transfer of protons to the external medium the presence and role of other oxidoreductases in the plasma membrane was documented especially in regard to peroxide production in plant cells this may contribute to cellular defense against invading parasites a corresponding function in animals has been long known and extensively discussed but was beyond the scope of this workshop
