Register of Commissioned and Warrant Officers of the United States Naval Reserve 1955 a seattle times selection for one of best non fiction books of 2010 winner of the new england historial association s 2010 james p hanlan award winner of the outdoor writers association of america 2011 excellence in craft award book division first place a compelling and well annotated tale of greed slaughter and geopolitics los angeles times as henry hudson sailed up the broad river that would one day bear his name he grew concerned that his dutch patrons would be disappointed in his failure to find the fabled route to the orient what became immediately apparent however from the indians clad in deer skins and good furs was that hudson had discovered something just as tantalizing the news of hudson s 1609 voyage to america ignited a fierce competition to lay claim to this uncharted continent teeming with untapped natural resources the result was the creation of an american fur trade which fostered economic rivalries and fueled wars among the european powers and later between the united states and great britain as north america became a battleground for colonization and imperial aspirations in fur fortune and empire best selling author eric jay dolin chronicles the rise and fall

of the fur trade of old when the rallying cry was get the furs while they last beavers sea otters and buffalos were slaughtered used for their precious pelts that were tailored into extravagant hats coats and sleigh blankets to read fur fortune and empire then is to understand how north america was explored exploited and settled while its native indians were alternately enriched and exploited by the trade as dolin demonstrates fur both an economic elixir and an agent of destruction became inextricably linked to many key events in american history including the french and indian war the american revolution and the war of 1812 as well as to the relentless pull of manifest destiny and the opening of the west this work provides an international cast beyond the scope of any hollywood epic including thomas morton the rabble rouser who infuriated the pilgrims by trading guns with the indians british explorer captain james cook whose discovery in the pacific northwest helped launch america s china trade thomas jefferson who dreamed of expanding the fur trade beyond the mississippi america s first multimillionaire john jacob astor who built a fortune on a foundation of fur and intrepid mountain men such as kit carson and jedediah smith who sliced their way through an awe inspiring and unforgiving landscape leaving behind a mythic legacy still resonates today concluding with the virtual extinction of the buffalo in the late 1800s fur fortune and empire is an epic history that brings to vivid life three hundred years of the american experience conclusively demonstrating that the fur

trade played a seminal role in creating the nation we are today

Longworth's American Almanack, New-York Register, and City Directory: for the ... Year of American Independence 1832 covers receipts and expenditures of appropriations and other funds

Annual Report of the Inspectors of State Prisons 1871

climate change is a serious problem influencing agricultural production worldwide and challenging researchers to investigate plant responses and to breed crops for the changed growing conditions abiotic stresses are the most important for crop production affecting about 96 5 of arable land worldwide these stress factors include high and low temperature water deficit drought and flooding salinity heavy metals uv radiation light chemical pollutants and so on since some of the stresses occurred simultaneously such as heat and water deficit causing the interactions of physiological processes novel multidisciplinary solutions are needed this book provides an overview of the present state in the research of abiotic stresses and molecular biochemical and whole plant responses helping to prevent the negative impact of global climate change
