Praat & Scripting (English Version)

2023-06-12

praat scripting is like cooking this book deals with everything about praat the author however does not know everything about it the more you know the more you see as the old saying goes i wrote it to the best of my knowledge during the long years with praat i ve written many scripts and given many talks and presentations i collected them all here in this book i d be very happy if researchers from a variety of majors could get help any errors or mistakes are mine so please let me know this book is just a beginning a lot of room for improvement i admit since i didn t write it at one sitting it could be more organized and focused let me know via my contact so that i can supplement this book writing about praat and scripts i felt that scripting is like cooking a luxury cuisine input files are like good ingredients variables and objects are like containers such as dishes and plates functions and operators are like cooking utensils cooking is like running script commands and finished cuisine is like output files it could be difficult and boring to beginners but i tried to be as easy and fun as possible it s a thick book but reading from time to time you could become a scripting expert in no time and feel the joy just like finishing a delicious cuisine i hope that what s in this book would satisfy advanced learners as well as beginners for beginners i tried to introduce basic techniques of making a recording and doing analyses and resynthesis e g manipulating pitch and durations for advanced learners i tried my best to introduce the basics and advanced topics of praat scripting with real scripts from my own papers and works and to explain how scripting can help you with your various linguistic works lastly i introduce how you can extract various linguistic information from speech corpora e g the buckeye corpus and seoul corpus using praat and scripting particularly i open to the public the scripts i used to build the seoul corpus which i hope will help you understand that scripting can help you work with a speech corpus this book is for people who know the least about computers such as launching an installed application and handling files in their computer don t worry however you re not good at computers i tried to be as kind as possible as if i m dealing with beginners most

operating systems are largely divided into windows and macs i wrote this book on my macos machine but i also added descriptions for windows systems also i assume that readers have the basic knowledge on phonetics e g a sound file being displayed on a spectrogram as well as on a waveform display for professional knowledge consult books on phonetics nonetheless i use some professional terms necessary for our readers to perform tasks related to phonetics and linguistics in general the book is organized as three parts part a praat basics teaches you the basics of praat and scripts part b praat advanced encourages you to start writing scripts based on what you learned earlier with sample and real scripts part c praat for corpus has two areas area 1 introduces the buckeye corpus and area 2 the seoul corpus you learn that praat and scripts can be useful in your research with speech corpora so much for the official stuff now what i d really liked to say to readers software such as praat may be easy for engineering students or people familiar with computers those of you who know one or two programming languages may think praat scripting is a piece of cake a couple of days or weeks later you d write basic and advanced scripts a couple of months you could lead a big project like building a speech corpus however this book is not for those computer experts rather the book is for those not familiar with computers and afraid of coding or scripting if you think is scripting worth my precious time i would rather ask some praat expert i know to do this job for me i give up this topic let s find another topic this book is for you i told some of my friends that i would some day write this book so that ordinary people could write a basic script after reading this book and if you still cannot write a simple script it means my book is not doing what it s meant for i d have to keep improving it until it does i kept my end of the bargain so it s your readers turn i plan to revise this book to its 2nd version 3rd version and so on as rome was not built in a day i ll be waiting for your feedbacks i ve used praat and scripts for a long time but as i said i do not know everything about them it s not why i wrote this book either rather i wrote this book to tell you among the huge number of wonderful features of praat which ones are frequently used in works related to phonetics speech synthesis and linguistics in general the features not frequently used and i know little about i did not even mention them for beginners i think it s equally important to know even the basic features and use them well not all the features of praat are equally important and are equally used frequently i intended to introduce to readers the most frequent and necessary features of praat so that they understand the relative importance of all the features and can use them in their daily research works my job is to let them enter the wonderful world of praat once you get in sit tight and enjoy your ride a single step toward a journey of a thousand miles 2021 02 28 kyuchul yoon ph d professor in phonetics

Assessing Young Learners of English: Global and Local Perspectives

2000

this volume documents international national and small scale testing and assessment projects of english language education for young learners across a range of educational contexts it covers three main areas age appropriate can do statements and task types for teaching and testing learners between the ages of 6 to 13 innovative approaches to self assessment diagnostic testing self perception and computer based testing and findings on how young learners perform on vocabulary listening speaking pronunciation and reading comprehension tests in european and asian contexts early language learning has become a major trend in english language education around the globe as a result of the spread of teaching english to a growing number of young children assessment of and for learning have emerged as key issues in line with this development there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development this volume informs stakeholders about the realistic goals of early language learning their efficiency and how much progress children make over time

Paratexts of the English Bible, 1525-1611

1995-03-16

english bibles from tyndale s 1525 new testament to the 1611 king james feature calendars woodcuts maps chronologies prayers philological glosses inset historical essays elaborate multi page diagrams single leaf summaries of scripture prefaces by eminent churchmen doctrinal notes by leading theologians a dialogue on predestination a twelfth century genealogy of christ a ninth century jewish chronicle most widely available given the hundreds of editions printed between those dates this book explores this archive but it also tracks its changes because while biblical translations remain relatively stable over time the paratexts cocooning a bible s first printing sometimes mutate or vanish in succeeding editions and indeed sometimes they migrate to a competing bible these paratexts together with their revelatory print histories disclose a picture of the english reformation that differs in striking ways from the authorized version

Neoliberalism and Market Forces in Education

2022-01-01

neoliberalism and market forces in education provides a wide perspective on the dramatic transformation of education policy in sweden that has taken place during the last 30 years with a specific focus on marketization the marketization of education in sweden is set in the wider international context of changes in education systems with contributions from researchers across a wide range of scientific disciplines the book provides examples of the consequences of market orientation in education in terms of increase in inequality as well as in terms of what the market orientation means for principals teachers and students it considers how sweden has developed one of the most marketized education systems in the world and the possible consequences of such processes as identified by research neoliberalism and market forces in education will be of great interest to educational practitioners politicians scholars in the field and postgraduate and research students in education

An Investigation Into the Comparability of Two Tests of English as a Foreign Language

1991

this book documents a major study comparing the cambridge first certificate in english fce with the test of english as a foreign language toefl to investigate similarities in test content candidature and use while both tests were designed to measure many of the same abilities they represent radically different approaches to language test development reflecting deeper differences between educational measurement traditions in the us and uk the thorough investigation of the fundamental characteristics and operational utility of two of the most widely used english tests for foreign students makes this study a valuable contribution to language testing research as such it will be of considerable interest to language testing specialists and examination boards as well as to academic researchers and graduate students in the field of language assessment more generally

Assessing the English Language Writing of Chinese Learners of English

2017-06-20

this book focuses on the assessment of english language writing in china mainland the territories of hong kong and macau and taiwan the first part of the book describes how writing in english has been assessed in chinese contexts in the past 25 years and how it continues to be assessed at present the second part of the book presents reports of work such as formative classroom based assessment feedback based or feedback led approaches learning oriented assessment portfolios as well as the important issue of teacher professional development in writing assessment this two part division relates to and reflects what has been happening in writing assessment internationally in the uk

from the 1940s and in the us in the past 25 years the use of english for international business communication for international political negotiations and its rapidly increasing use as a medium of instruction in some subject areas has led to a rapid increase in the numbers of chinese l1 speakers who are learning and being assessed in english this is often done with an emphasis on reading and writing the vast majority of assessments of english language writing are done through large scale direct testing that uses simple prompts tasks and short writing samples this book explores best practices in assessing the writing in english of native speakers of chinese assessing the english language writing of chinese learners of english edited by long time experts liz hamp lyons and yan jin clearly demonstrates the authors collective years of writing and teaching about writing assessment the book s 13 chapters written by recognized experts in assessment of chinese speakers learning english represent a wide array of important topics written in reader friendly language and offering evidence for pedagogical practices as well as high stakes testing of writing teachers researchers administrators of writing programs in china and test developers who seek counsel about this population need look no further than to add assessing the english language writing of chinese learners of english to their reading list deborah crusan wright state university usa
