

Epub free The celebrated cases of judge dee (Read Only)

tough cases stands out as a genuine revelation our most distinguished judges should follow the lead of this groundbreaking volume justin driver the washington post a rare and illuminating view of how judges decide dramatic legal cases law and order from behind the bench including the elián gonzález terri schiavo and scooter libby cases prosecutors and defense attorneys have it easy all they have to do is to present the evidence and make arguments it s the judges who have the heavy lift they are the ones who have to make the ultimate decisions many of which have profound consequences on the lives of the people standing in front of them in tough cases judges from different kinds of courts in different parts of the country write about the case that proved most difficult for them to decide some of these cases received international attention the elián gonzález case in which judge jennifer bailey had to decide whether to return a seven year old boy to his father in cuba after his mother drowned trying to bring the child to the united states or the terri schiavo case in which judge george greer had to decide whether to withdraw life support from a woman in a vegetative state over the wishes of her parents or the scooter libby case about appropriate consequences for revealing the name of a cia agent others are less well known but equally fascinating a judge on a native american court trying to balance u s law with tribal law a young korean american former defense attorney struggling to adapt to her new responsibilities on the other side of the bench and the difficult decisions faced by a judge tasked with assessing the mental health of a woman who has killed her own children relatively few judges have publicly shared the thought processes behind their decision making tough cases makes for fascinating reading for everyone from armchair attorneys and fans of law and order to those actively involved in the legal profession who want insight into the people judging their work this book examines the right to a neutral and detached decisionmaker as interpreted by the u s supreme court this right resides in the constitution s fifth amendment and fourteenth amendment guarantees to procedural due process and in the sixth amendment s promise of an impartial jury supreme court cases on these topics are the vehicles to understand how these constitutional rights have come alive first the book surveys the right to an impartial jury in criminal cases by telling the stories of defendants whose convictions were overturned after they were the victims of prejudicial pretrial publicity mob justice and discriminatory jury selection next the book articulates how our modern notion of judicial impartiality was forged by the court striking down cases where judges were bribed where they had other direct financial stakes in the outcome of the case and where a judge decided the case of a major campaign supporter finally the book traces the development of the right to a neutral decisionmaker in quasi judicial non court settings including cases involving parole revocation medical license review mental health commitments prison discipline and enemy combatants each chapter begins with the typically shocking facts of these cases being retold and each chapter ends with a critical examination of the supreme court s ultimate decisions in these cases this lively original book is likely to be a milestone in america s ongoing fascination with the drama of trials and justice fred graham former chief anchor court tv have you ever had the chance to decide the fate of another person what would you do in the real life cases presented to you in this book you will be the judge and the jury making the ultimate decision between right and wrong can you convict an abused woman who kills her husband because she is afraid he will beat her again what about a man who helps his best friend commit suicide to avoid a painful death would you allow a feeding tube to be removed from a 92 year old coma victim so she can die peacefully put yourself in the place of the judge or one of the jurors as you read the details of each case many of these trials raise questions that go beyond the law to the heart of one s own moral code at the end of each case after rendering your own verdict you can read on to find out what really happened the case is now in your hands in the american judicial system jurors hold an awesome responsibility they have the power to grant millions of dollars in damages to declare someone guilty or not guilty of a crime and in some states to decide if another human being should live or die the twelve real life court cases presented here not only offer students a fascinating inside look at the court system they give them the opportunity to step into the jury box and experience american justice in action all the key factors of jury trials are discussed expert witnesses the allowance of certain kinds of evidence claims of diminished capacity and much more each case is followed by a series of interactive questions that test readers knowledge of the issues involved and at the end of each chapter students will find out how the real jury decided and why as entertaining as it is educational you re the jury offers a hands on introduction to a unique aspect of the american legal system norbert ehrenfreund has served as a judge for seventeen years in the superior court of california lawrence treat is a founder and former president of the mystery writers of america a three time edgar allan poe award winner and the author of the highly successful crime and puzzlement series in dissenting judgments in the law a team of expert contributors reassess nineteen landmark cases from different areas of the law each of which had the potential for the law to have developed in a markedly different direction the cases have been selected on account of their continued relevance to the law today or the controversial nature of the majority s decision a key feature of each case was a dissenting opinion from a judge who thought that the law should develop in a different direction the aim of the contributors is to re evaluate important cases such as plessy v ferguson 1896 and r v brown 1994 by assessing the merits of the judgments given before deciding whether the law would in fact have been better served by following the dissenting opinion rather than that of the majority of judges in the case the judicial reasoning in each case is explored in depth and is contrasted with differing approaches in other jurisdictions where relevant a comparative analysis is employed in order to show how the law by not following the dissenting opinion has developed out of step with other common law jurisdictions each contributor then sets out what impact the dissenting judgment might have had on the law if it had decided the case and assess where the law in that particular field would be today a highly stimulating book from the foreword by lord nicholls of birkenhead the people who denied bill his us constitutional rights and protections know who they are and what they did for the love of money now the rest of the world can know too this is the story

of a laymans fight against a justice system that refuses to look out for his rights child protective services literally rips bills family apart stealing his younger daughter joanna it all starts when allicia falls in love with a boy shell do anything to be witheven if that means accusing her father of sexually abusing her from an early age seeking to build a case investigators badger other family members to get them to come over to the states side a police report ends up being a preliminary brief on behalf of the prosecution instead of a retelling of the facts bill had to learn how to file motions and appeals its a lot of work but he knows the truth and hell do whatever it takes to expose the injustice of the justice system describes fifty two ethical problems from everyday jewish life and supplies pertinent material for solving them according to jewish law teens often hear about other teens who get into trouble with the law but they re seldom asked what they think should happen next and why a unique introduction to the juvenile justice system they broke the law you be the judge true cases of teen crime invites teens to preside over a variety of real life cases they meet adam who makes a threat in school erica who assaults another student and uses marijuana and more young people who commit crimes and are caught like a judge readers learn each teen s background the relevant facts and the sentencing options available after deciding on a sentence they find out what really happened and where each offender is today along the way readers learn judge jacobs concerns about each case reflect on probing questions and discover that they can t jump to conclusions teens and teachers who want more can find role playing ideas and scenarios related to the stories available as free downloads here on the free spirit site thought provoking and eye opening this book is for all teens who want to know more about the juvenile justice system and the laws that pertain to them and their peers 1 introduction 2 rule i personal advocacy 3 rule ii one central theme 4 rule ii make the case bigger than its facts 5 the four laws primacy recency frequency and vividness 6 opening argument not opening statement 7 problems to confront in openings 8 the form of the opening 9 final considerations for opening 10 edward bennett williams opens 11 openings in nonjury trials 12 applications of the principles to a case 13 the colonial pipeline case 14 jury voir dire 15 voir dire in two actual cases 16 conclusion appendix a united states v weber opening for the government appendix b united states v weber opening for the defense index this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant describes actual cases for the reader to decide the results at the trial and on appeal excerpt from decision of judge leavitt of ohio in the vallandigham habeas corpus case district judge it would not only be disrespectful to the superior judge but would evince in the district judge an utter want of appreciation of his true official connection with the circuit court about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works this book is the second of four volumes published under the series title the judge and the creative positivist creative positivism is a legal philosophy that is an extension of h l a hart s legal positivist theory presented in his classic work the concept of law david moskowitz has a unique relationship with the concept of law because hart was his tutor and used his critique of the concept of law as the basis for deciding that he would qualify for the d phil degree at oxford university in the first volume the judge and the umpire the author explains why judges are not like umpires because judges have the authority to create new legal rules in this second volume moskowitz reviews the impact of the american legal realists who established that judges do not always apply the rules of pre existing law in deciding cases legal positivism is based on three theories the pedigree theory laws are based upon the sources of the legal rules the separation theory the distinction between law that is and potential law the difference between law and non law and the separation of legal rules from moral rules and the discretionary theory judges have discretion when the law is unclear to create new legal rules rather than deciding cases by applying only rules that existed before the case was decided in hart s version of the discretionary theory judges exercise discretion only in the cases in which the pre existing law is indeterminate the hard cases here moskowitz contends that judges use discretion in all cases in which the judge creates a new legal rule this may include cases in which the law was certain before the decision is made but in which the judge does not apply the pre existing law and instead creates a new legal rule moskowitz uses the law of zoning to demonstrate the impact of justice upon the making of such legal decisions this book will be of interest to law students and to all readers who want to understand the sources used by judges in making judicial decisions and the standards by which these judicial decisions may be evaluated tells of a celebrated seventh century chinese magistrate s investigation of a double murder among traveling merchants the fatal poisoning of a bride on her wedding night and a murder in a small town a judicial history of bombay during the british period the idea that wealthy people use their money to influence things including politics law and media will surprise very few people however as michael s kang and joanna shepherd argue in this readable and rich study of the state judiciary the effect of money on judicial outcomes should disturb and anger everyone in the current system that elects state judges the rich and powerful can spend money to elect and re elect judges who decide cases the way they want free to judge is about how and why money increasingly affects the dispensation of justice in our legal system and what can be done to stop it one of the barriers to action in the past has been an inability to prove that campaign donations influence state judicial decision making in this book

kang and shepherd answer that challenge for the first time with a rigorous empirical study of campaign finance and judicial decision making data pairing this with interviews of past and present judges they create a compelling and persuasive account of people like marsha ternus the first iowa state supreme court justice to be voted out of office after her decision in a same sex marriage case the threat of such an outcome and the desire to win reelection results in judges demonstrably leaning towards the interests and preferences of their campaign donors across all cases free to judge is thus able to identify the pieces of our current system that invite bias such as judicial reelection and what reforms should focus on this thoughtful and compellingly written book will be required reading for anybody who cares about creating a more just legal system world criminal justice systems ninth edition provides an understanding of major world criminal justice systems by discussing and comparing the systems of six of the world s countries each representative of a different type of legal system an additional chapter on islamic law uses three examples to illustrate the range of practice within sharia political historical organizational procedural and critical issues confronting the justice systems are explained and analyzed each chapter contains material on government police judiciary law corrections juvenile justice and other critical issues the ninth edition features an introduction directing students to the resources they need to understand comparative criminal justice theory and methodology the chapter on russia includes consideration of the turmoil in post soviet successor states and the final chapter on islamic law examines the current status of criminal justice systems in the middle east judge shigeru oda having served since 1976 in three successive nine year terms on the international court of justice has helped to shape the court s jurisprudence for over a quarter century his influence on the law of the sea spans an even longer period beginning with his doctoral dissertation at yale law school in the 1950s and continuing with his involvement in the first second and third un conferences on the law of the sea in a tribute to judge oda s significant contributions to international law leading scholars on the law of the sea international dispute settlement and the icj itself have produced a festschrift in his honour that promises to be a standard reference work on these topics for years to come this two volume work containing over 95 articles begins by examining the role of the international judge and the jurisdiction of international tribunals including reservations to jurisdiction the optional clause the special agreement and the power to indicate special measures it contains a particularly lively debate regarding the proliferation of international tribunals and whether the potential for conflicting decisions is problematic or productive other areas of focus include the history and current development of the law of the sea the first in depth examination of the establishment and first decisions of the international tribunal for the law of the sea and the icj s treatment of the development doctrines and sources of international law further sections are devoted to international litigation as analysed by leading practitioners land and maritime boundaries international watercourses and other waters and defence the use of force and the law of armed conflict the composition of the editorial team nisuke ando of kyoto edward mcwhinney of ottawa and rüdiger wolfrum of heidelberg reflects judge oda s truly international career and the extent to which his work has drawn from and contributed to diverse legal traditions the print edition is available as a set of two volumes 9789041117908 bazyler and alford have produced an essential tool for understanding the righteous struggle to win restitution for holocaust victims and their heirs richard z chesnoff author of pack of thieves how hitler europe plundered the jews committed the greatest theft in history this excellent volume makes a significant contribution both to legal studies and to the history of the holocaust the editors deserve special praise for including chapters by holocaust survivors assuring that their often forgotten voices are not lost within the great debate about holocaust restitution marilyn j harran stern chair in holocaust history chapman university an invaluable text for students and scholars as well as a fascinating read for all those concerned with holocaust and genocide issues in all disciplines and on behalf of all victims israel w charny president international association of genocide scholars this unique collection is important in bringing together the perspectives of legal practitioners activists archivists and historians negotiators and survivors it is remarkably comprehensive the editors have not shied away from controversy david cesarani research professor in history royal holloway university of london if there is a final frontier in understanding the holocaust it is the assessment of international litigation compensation and reparations claims this extraordinary group of contributions thoughtfully reflects on the holocaust past and present as well as what many would call imperfect justice stephen feinsein professor of history and director center for holocaust and genocide studies university of minnesota this collection of essayson holocaust restitution litigation provides a wonderful overview sept 10 oct 13 1991 some vols also contain reports of cases in the general court of virginia this volume brings together leading experts on the investigation litigation and scholarly analysis of innocence cases in america from legal political and ethical perspectives the contributors consider the challenges faced by the exoneration movement causes of wrongful convictions problems associated with investigating proving and defining innocence and theories of reform these issues are investigated from a multi disciplinary perspective and with the aim of improving the american criminal justice system when it is faced with its most harrowing sight an innocent defendant pure orthodox and incorruptible judge bao has been serving as the preeminent embodiment of justice in china for almost a thousand years so much so his court case have been adapted as stories novels and plays over the centuries now for the very first time a series of eight ballad stories on judge bao dating from the period 1250ndash 1450 are offered in a complete and annotated translation these texts will provide the reader a complete reflection of the legend of judge bao in its earliest phase of development with an extended introduction placing the ballad stories in context with the development of the judge bao legend these ballad stories in contrast to past plays dating from the same period present abuse of power and corruption as endemic in the courts and bureaucratic service and show judge bao imposing the rule of law even on the emperor
