australia s response to asylum seeking boat people is a hot button issue that feeds the political news cycle but the daily reports and political promises lack the historical context that would allow for informed debate have we ever taken our fair share of refugees have our past responses been motivated by humanitarian concerns or economic self interest is the influx of boat people over the last fifteen years really unprecedented in this eloquent and informative book historian klaus neumann examines both government policy and public attitudes towards refugees and asylum seekers since federation he places the australian story in the context of global refugee movements and international responses to them neumann examines many case studies including the resettlement of displaced persons from european refugee camps in the late 1940s and early 1950s and the panic generated by the arrival of vietnamese asylum seekers during the 1977 federal election campaign by exploring the ways in which politicians have approached asylum seeker issues in the past neumann aims to inspire more creative thinking about current refugee and asylum seeker policy klaus neumann has written a humane engrossing book imbued with the awareness that in telling the history of australia one tells the story of immigration immigrants always resisted always blasted by invective and ever essential to our society and polity show us ourselves through the heroic journeys of ancestors the recurrent frenzies of resistance right up to our present parlous state as the most supposedly tolerant intolerant society on earth but if you think you ve read all this before you should know neumann has brought to this book a novelty of approach a freshness of perception that means all the others have been mere preparation tom keneally a riveting book vast in scope and timely arnold zable across the seas is a call to remember to rethink and regenerate and to overcome our culture of forgetting it s a fine and vital book a work of highly accessible and gripping historical scholarship which must be read by as many people in this country and abroad as possible david manne across the seas strongest point is a lack of dudgeon rather than condemn or mock historical players with thunderous prose and stylistic eye rolling neumann plays it cool neumann gives us a mature and measured consideration of
