The Quarter-Acre Farm 2011-03-15

the bec hellouin model for growing food sequestering carbon creating jobs and increasing biodiversity without using fossil fuels when charles and perrine hervé gruyer set out to create their farm in an historic normandy village they had no idea just how much their lives would

change neither one had ever farmed before charles had been circumnavigating the globe by sail operating a floating school that taught students about ecology and indigenous cultures perrine had been an international lawyer in japan each had returned to france to start a new life eventually perrine joined charles in normandy and le ferme du bec hellouin was born bec hellouin has since become a celebrated model of innovative ecological agriculture in europe connected to national and international organizations addressing food security heralded by celebrity chefs as well as the slow food movement and featured in the inspiring césar and colcoa award winning documentary film demain tomorrow miraculous abundance is the eloquent tale of the couple s evolution from creating a farm to sustain their family to delving into an experiment in how to grow the most food possible in the most ecological way possible and create a farm model that can carry us into a post carbon future when oil is no longer moving goods and services energy is scarcer and localization is a must today the farm produces a variety of vegetables using a mix of permaculture bio intensive four season and natural farming techniques as well as techniques gleaned from native cultures around the world it has some animals for eggs and milk horses for farming a welcome center a farm store a permaculture school a bread oven for artisan breads greenhouses a cidery and a forge it has also become the site of research focusing on how small organic farms like theirs might confront europe s and the world s projected food crisis but in this honest and engaging account of the trials and joys of their uncompromising effort readers meet two people who are farming the future as much as they are farming their land they envision farms like theirs someday being the hub for a host of other businesses that can drive rural communities from bread makers and grain millers to animal care givers and other tradespeople market farmers and home gardeners alike will find much in these pages but so will those who ve never picked up a hoe the couple s account of their quest to design an almost edenlike farm hone their practices and find new ways to feed the world is an inspiring tale it is also a love letter to a future in which people increasingly live in rural communities that rely on traditional skills locally created and purveyed goods and services renewable energy and greater local governance but are also connected to the larger world

growing greener is an illustrated workbook that presents a new look at designing subdivisions while preserving green space and creating open space networks randall arendt explains how to design residential developments that maximize land conservation without reducing overall building density thus avoiding the political and legal problems often associated with down zoning the author offers a three pronged strategy for shaping growth around a community s special natural and cultural features demonstrating ways of establishing or modifying the municipal comprehensive plan zoning ordinance and subdivision ordinance to include a strong conservation focus open space protection becomes the central organizing principle for new residential development and the open space that is protected is laid out to form an interconnected system

of protected lands running across a community the book offers detailed information on how to conduct a community resource inventory a four step approach to designing conservation subdivisions extensive model language for comprehensive plans subdivision ordinances and zoning ordinances illustrated design principles for hamlets villages and traditional small town neighborhoods in addition growing greener includes eleven case studies of actual conservation developments in nine states and two exercises suitable for group participation case studies include ringfield chadds ford township pennsylvania the fields of st croix city of lake elmo minnesota prairie crossing grayslake illinois the meadows at dolly gordon brook york maine farmcolony standsville virginia the ranch at roaring fork carbondale colorado and others growing greener builds upon and expands the basic ideas presented in arendt s earlier work conservation design for subdivisions broadening the scope to include more detailed sections on the comprehensive planning process and information on how zoning ordinances can be updated to incorporate the concept of conservation design it is the first practical publication to explain in detail how resource conserving development techniques can be put into practice by municipal officials residential developers and site designers and it offers a simple and straightforward approach to balancing opportunities for developers and conservationists
