consistent with fundamental common law principles the author explains that the Australian High Court's decision in Mabo provides a broader basis for the doctrine a broader basis which is consistent with a re-evaluation of case law from former British colonies in Africa as well as from the United States New Zealand and Canada in this context the book proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity with rare exceptions the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as Dr Secher does in her research she goes to the root of the conceptual problems around the legal nature of indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown this book is a formidable contribution that I expect will be influential in shifting legal thinking on indigenous land rights in progressive new directions from the foreword by Professor Kent McNeil to read the foreword please click on the sample chapter link
