finalist for the nypl helen bernstein award for excellence in journalism the lukas book prize and the royal society science book prize 2022 nautilus book award silver medal american society of journalists and authors honorable mention in general nonfiction named a best book of the year by world economic forum aarp greater good and inc the end of bias is a transformative groundbreaking exploration into how we can eradicate unintentional bias and discrimination the great challenge of our age unconscious bias persistent unintentional prejudiced behavior that clashes with our consciously held beliefs we know that it exists to corrosive and even lethal effect we see it in medicine the workplace education policing and beyond but when it comes to uprooting our prejudices we still have far to go with nuance compassion and ten years immersion in the topic jessica nordell weaves gripping stories with scientific research to reveal how minds hearts and behaviors change she scrutinizes diversity training deployed

across the land as a corrective but with inconsistent results she explores what works and why the diagnostic checklist used by doctors at johns hopkins hospital that eliminated disparate treatment of men and women the preschool in sweden where teachers found ingenious ways to uproot gender stereotyping the police unit in oregon where the practice of mindfulness and specialized training has coincided with a startling drop in the use of force captivating direct and transformative the end of bias a beginning brings good news biased behavior can change the approaches outlined here show how we can begin to remake ourselves and our world includes illustrated charts

## Emerging Infectious Diseases 2015-07

Emerging infectious diseases are a major public health concern. This book provides a comprehensive overview of the field, covering the latest research and clinical practice. It includes chapters on the epidemiology, diagnosis, and treatment of various emerging infectious diseases, as well as the role of the immune system in host defense. The book is written for a wide audience, including students, researchers, and clinicians.

## The End of Bias: A Beginning 2021-09-21

The End of Bias: A Beginning

## 1999-12

The End of Bias: A Beginning is a book by Meehan and Meehan. It is a collection of essays that explore the concept of bias and its impact on society. The book is written in a clear and accessible style, making it suitable for a wide range of readers. It includes chapters on the history of bias, the science of bias, and the ways in which bias can be overcome. The book is a valuable resource for anyone interested in the topic of bias and its impact on our lives.

## 2010

the goal of this ebook is to shed light on the non linguistic causes of language diversity and in particular to explore the possibility that some aspects of the structure of languages may result from an adaptation to the natural and or human made environment traditionally language diversity has been claimed to result from random internally motivated changes in language structure however ongoing research suggests instead that different factors that are external to language can promote language change and ultimately account for aspects of language diversity specifically features of the social and physical environments the contributions in this ebook discuss whether some aspects of languages are an adaptation to ecological social or even technological niches

## 2016-05

This book is a comprehensive guide to the world of mobile devices, covering everything from smartphones to smart TVs. It provides a detailed overview of the latest technology and offers practical advice on how to use these devices to their full potential. The book is written in a clear and concise style, making it easy to read and understand. It is a valuable resource for anyone who is interested in mobile technology and wants to stay up-to-date on the latest trends and developments in the industry.
