Official Gazette of the United States Patent and Trademark Office 2005

examines the causes and consequences of saudi arabia s current security policy and the domestic regional and international challenges the country s defense program presents to the general welfare of the middle east as possessor of a

quarter of the world's oil reserves and host to two of the holiest cities in Islam, Saudi Arabia is an integral part of the cultural, economic and political well-being of the Middle East. From Persian Gulf security to Middle Eastern politics to the international energy industry, events in this desert kingdom strongly impact the stability of the region. This comprehensive resource analyzes contemporary Saudi Arabia, its modern history, the role of Islam, and the nature of Saudi foreign relations, and reveals how these and other factors dictate and shape the country's current security policies and priorities. Middle East expert and author Mathew Gray has organized the work into six sections. The first provides an historical overview of the region from the mid-1700s to the 1980s. The second explores the Saudi political and security system. The third discusses Saudi-U.S. relations. The fourth looks at Saudi relations with the Gulf region and the wider Middle East, and the fifth considers Saudi Arabia's role in Sunni extremism and terrorism. The final chapter looks at emerging security threats for Saudi Arabia. The book includes an overview of future challenges and risks, including climate change, water shortages, and problems of Saudi identity and social dispersion.

(Free Sample) NTSE 11 Year-wise Class 10 Stage 2 Solved Papers (2021 - 10) 2021-07-01

This book presents the proceedings of the 3rd International Conference of Reliable Information and Communication Technology 2018 (IRICT 2018) which was held in Kuala Lumpur, Malaysia, on July 23-24, 2018. The main theme of the conference was Data Science, AI, and IoT Trends for the Fourth Industrial Revolution. A total of 158 papers were submitted to the conference, of which 103 were accepted and considered for publication in this book. Several hot research topics are covered, including advances in data science and big data analytics, artificial intelligence, and soft computing, business intelligence, Internet of Things (IoT) technologies and applications, intelligent communication systems, advances in computer vision, health informatics, reliable cloud computing environments, recent trends in knowledge management, security issues in the cyber world, and advances in information systems research theories and methods.

Global Security Watch—Saudi Arabia 2014-10-07

The Kurds, once marginal in the study of the Middle East and secondary in its international relations, have moved to centre stage in recent years. The contributors to the Kurdish Question Revisited offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.

Recent Trends in Data Science and Soft Computing 2018-09-08

The aim of this study is to examine the extent to which the end of the Cold War led to Europeanisation in the Common Security and Defence Policy (CSDP). The analysis takes into consideration previous studies on Europeanisation and its impact on the transformation of national security and defence, and attempts to account for the development of Europeanisation and related mechanisms. These mechanisms, which have been described as framing mechanisms and negative integration, incorporate all the major relevant factors identified here, i.e. a common strategic culture, new security identity, domestic political decision-making, industrial base, and defence spending decline that contributed to the realisation of the CSDP. The relevance of these factors for CSDP Europeanisation is examined through an historical and empirical analysis, and the relationship between the CSDP and North Atlantic Treaty Organization (NATO) is also explored. This approach facilitates analysis of the debate concerning the emergence of the CSDP and throws light on the political shift that led European Union (EU) leaders to support the CSDP. Another aspect of this study is the empirical examination of the dynamics and limitations of the European defence sector. The

changes which took place in this sector facilitated the emergence of the csdp and are therefore analysed in the light of globalisation issues economies of scale economic crises military autonomy new security strategy and research and development r d impact this book will be of interest to students of european security eu politics defence studies and international relations

The Kurdish Question Revisited 2017-08-15

the kurds have long been a people who have been persecuted and oppressed in their own land. they have fought for their rights and freedom and have achieved many successes. however, their struggle is still ongoing and they need the support of the international community. this book examines the history of the kurds and their current situation. it also discusses the role of the kurds in the region and the world. the book is divided into five chapters: 1. the kurds in the region 2. the kurds in the world 3. the kurds in the future 4. the kurds in the present 5. the kurds in the past. the book is a comprehensive and up-to-date study of the kurds and their struggle for freedom and justice.

Europeanisation and the Transformation of EU Security Policy 2018-05-15

in the aftermath of the turmoil that shook north africa in late 2010 and early 2011 commentators and analysts have sought explanations to the factors that triggered the uprisings and to understand why a region seemingly characterized by relative stability for decades would suddenly erupt in convulsions had an underlying dynamism in the region overwhelmed what were ostensibly stable authoritarian regimes what were the connections to events and dynamics beyond the region such as countries in the middle east international commodity markets and environmental factors amongst others why had allies abetted authoritarianism for so long and what were the implications for such alliances north african politics change and continuity brings together experts to explore these questions providing in depth analyses of important developments in the region which build upon and complement the 2008 companion volume north africa politics region and the limits of transformation this 21 chapter volume is a key contribution that responds to the need in the anglo american sphere for sustained critical studies on north africa and examines political economic security social and military aspects of the region focused studies on individual countries allow detailed discussion of regional factors the book also examines extrinsic trans regional dynamics such as north africa s influential interdependencies with the levant and the gulf europe sahelian and sub saharan africa and north america its innovative approach provides new perspectives on north africa extending its research scope to include egypt and exploring china s evolving role in the region providing an important contribution in the assessment of the ever shifting political and social tectonics within and beyond north africa north african politics is an essential resource for students scholars and policy makers in middle eastern and north african studies and beyond

2024-05-24

this book will be a collection of the conference manuscripts presented at the 2022 2nd international joint conference on energy electrical and power engineering covering new and renewable energy electrical and power engineering it is expected to report the latest technological developments in the fields developed by academic researchers and industrial practitioners the application and dissemination of these technologies will benefit the research community as new research directions are becoming increasingly interdisciplinary requiring researchers from different research areas to come together and share ideas it will also benefit the electrical engineering and energy industry as we are now experiencing a new wave of industrial revolution i e the electrification intelligentisation and digitalisation of our transport manufacturing processes and way of thinking

Conference Proceedings of 2022 2nd International Joint Conference on Energy, Electrical and Power Engineering 2023-08-02

this book provides a comprehensive evaluation of india s multi faceted relations with myanmar it unravels the mysteries of the complex polity of myanmar as it undergoes transition through democracy after long military rule based on meticulous research and understanding the volume traces the trajectory of india myanmar associations from ancient times to the present day and offers a fascinating story in the backdrop of the region s geopolitics an in depth analysis of india myanmar china triangle brings out the strategic stakes involved it will be of great interest to researchers and scholars of international relations peace and conflict studies defence and strategic studies politics south and southeast asian studies as well as policy makers and political think tanks

OECD Economic Surveys: Turkey 2014 2014-07-10

this book features the latest theoretical results and techniques in the field of guidance navigation and control gnc of vehicles and aircrafts it covers a wide range of topics including but not limited to intelligent computing communication and control new methods of navigation estimation and tracking control of multiple moving objects manned and autonomous unmanned systems guidance navigation and control of miniature aircraft and sensor systems for guidance navigation and control etc presenting recent advances in the form of illustrations tables and text it also provides detailed information of a number of the studies to offer readers insights for their own research in addition the book addresses fundamental concepts and studies in the development of gnc making it a valuable resource for both beginners and researchers wanting to further their understanding of guidance navigation and control

India--Myanmar Relations 2015-08-11

communication yearbook 40 completes four decades of publishing state of the discipline literature reviews and essays in the final communication yearbook volume editor elisia l cohen includes chapters representing international and interdisciplinary scholarship demonstrating the broad global interests of the international communication association the contents include summaries of communication research programs that represent the most innovative work currently emphasizing timely disciplinary concerns and enduring theoretical questions this volume will be valuable to scholars throughout the communication discipline and beyond

Advances in Guidance, Navigation and Control 2023-02-10

the united states and 11 other countries from both sides of the pacific are currently negotiating the trans pacific partnership tpp the agreement is expected to set new benchmark for international trade through its comprehensive coverage of issues and binding regulations it is expected to eventually mature into a regional trade agreement covering the entire asia pacific as of now it does not include china and india the two largest emerging markets and regional economies the tpp has generated controversy for its excessive emphasis on trade issues which have remained unresolved or unaddressed at the wto due to

differences between developed and emerging markets it has also been criticized for adopting a negotiating style reflecting the us regulatory approach to international trade and also as a geo political strategy of the us for supporting its strategic rebalancing towards asia from both economic and geo political perspectives the tpp has various significant implications for china and india that are examined in the book this book sheds light on how china and india s entries in the tpp are mutually beneficial and how both countries can gain from the tpp by gaining preferential access to large markets and using it as an opportunity for introducing more outward oriented reforms the book also cautions that us must reconcile to the rebalancing of economic power within the grouping that will occur following the entries of china and india otherwise the tpp and china and india might walk divergent paths and trade and regional integration in asia pacific may not ever converge this book will interest anyone who wishes to learn more about the tpp and its future implications and challenges and china and india s roles in global and regional trade

Communication Yearbook 40 2016-05-05

how do bank supervisors strike a balance between market self regulation and pro active regulatory intervention this book investigates the choice of banking supervision approach in four european union member states from central and eastern europe bulgaria estonia hungary and slovenia after their transition to democracy and market economy

The Trans Pacific Partnership, China and India **2014-06-05**

this book provides a comprehensive study into the promotion of regional integration as a central pillar of european union eu relations with the rest of the world it is a strategy to deal with a core security challenge the transformation of conflicts and in particular regional conflicts yet to what extent has the promotion of regional integration been successful in transforming conflicts what can we regard as the core mechanisms of such an impact this volume offers a comprehensive assessment of the nexus between promoting integration and conflict transformation the authors systematically compare the consequences of eu involvement in eight conflicts in four world regions within a common framework in doing so they focus on the promotion of integration as a preventative strategy to avoid conflicts turning violent and as a long term strategy to transform violent conflicts by placing them in a broader institutional context the book will be of use to students and scholars interested in european foreign policy comparative regionalism and conflict resolution

Regulating Banks in Central and Eastern Europe **2014-08-20**

this volume collects contributions from the speakers at an indam intensive period held at the university of bari in 2017 the contributions cover several aspects of partial differential equations whose development in recent years has experienced major breakthroughs in terms of both theory and applications the topics covered include nonlocal equations elliptic equations and systems fully nonlinear equations nonlinear parabolic equations overdetermined boundary value problems maximum principles geometric analysis control theory mean field games and bio mathematics the authors are trailblazers in these topics and present their work in a way that is exhaustive and clearly accessible to phd students and early career researcher as such the book offers an excellent introduction to a variety of fundamental topics of contemporary investigation and inspires novel and high quality research

The EU, Promoting Regional Integration, and Conflict Resolution 2017-02-16

the human has always prided himself as an exceptional moral species but has always been haunted by two questions why am i not good when i want to be why do i do bad when i don t want to this is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness the book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self it is because we are ignoring this war between two sides of our own self it is because we are ignoring this war that we are losing all other wars of the world that ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread but a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives the book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us

Contemporary Research in Elliptic PDEs and Related Topics 2019-07-12

this book constitutes the refereed proceedings of the 10th international conference on social robotics icsr 2018 held in qingdao china in november 2018 the 60 full papers presented were carefully reviewed and selected from 79 submissions the theme of the 2018 conference is social robotics and ai in addition to the technical sessions icsr 2018 included 2 workshops smart sensing systems towards safe navigation and social human robot interaction of service robots

The War Within - Between Good and Evil 2018-11-26

sub saharan africa s turnaround over the past couple of decades has been dramatic after many years in decline the continent s economy picked up in the mid 1990s along with this macroeconomic growth people became healthier many more youngsters attended schools and the rate of extreme poverty declined from 54 percent in 1990 to 41 percent in 2015 political and social freedoms expanded and gender equality advanced conflict in the region also subsided although it still claims thousands of civilian lives in some countries and still drives pressing numbers of displaced persons despite africa s widespread economic and social welfare accomplishments the region s challenges remain daunting economic growth has slowed in recent years poverty rates in many countries are the highest in the world and notably the number of poor in africa is rising because of population growth from a global perspective the biggest concentration of poverty has shifted from south asia to africa accelerating poverty reduction in africa explores critical policy entry points to address the demographic societal and political drivers of poverty improve income earning opportunities both on and off the farm and better mobilize resources for the poor it looks beyond macroeconomic stability and growth critical yet insufficient components of these objectives to ask what more could be done and where policy makers should focus their attention to speed up poverty reduction the pro poor policy agenda advanced in this volume requires not only economic growth where the poor work and live but also mitigation of the many risks to which african households are exposed as such this report takes a jobs lens to its task it focuses squarely on the productivity and livelihoods of the poor and vulnerable that is what it will take to increase their earnings finally it presents a road map for financing the poverty and development agenda

Social Robotics 2019-10-09

money is usually understood as a valuable object the value of which is attributed to it by its users and which other users recognize it serves to link disparate institutions providing a disguised whole and prime tool for the invisible hand of the market this book offers an interpretation of money as a social institution money provides the link between the household and the firm the worker and his product making that very division seem natural and money as imminently practical money as a social institution begins in the medieval period and traces the evolution of money alongside consequent implications for the changing models of the corporation and the state this is then followed with double entry accounting as a tool of long distance merchants and bankers then the monitoring of the process of production by professional corporate managers davis provides a framework of analysis for examining money historically beyond the operation of those particular institutions which includes the possibility of conceptualizing and organizing the world differently this volume is of great importance to academics and students who are interested in economic history and history of economic thought as well as international political economics and critique of political economy

Accelerating Poverty Reduction in Africa 2017-07-14

this selected issues paper presents a preliminary assessment of recent labor market reforms in spain where the 2012 labor market reforms are making a difference wage moderation is contributing to a visible recovery in headline employment growth and the reforms have made the labor market more resilient to shocks some evidence exists that the contribution of temporary contracts to employment growth has started to decrease however the reliance on temporary workers remains strong overall and further structural reforms will be required to reduce the still very high level of long term structural unemployment

Money as a Social Institution 2015-08-14

collection assessment can be defined as the systematic quantitative and qualitative measurement of the degree to which a library s collections meet the library s goals objectives and the needs of its users e resources are creating new challenges for collection assessment which require that the collection be measured analyzed and judged according to specific criteria for relevancy size quality and use the handbook of research on digital content management and development in modern libraries is a critical scholarly resource that examines collection management and quality within information services featuring a wide range of topics such as e resources knowledge management and consortia this book is ideal for professionals academicians academic librarians researchers and students in the fields of library and information science education computer science and information technology moreover the book will provide insights and support executives concerned with the management of expertise knowledge information and organizational development in different types of work communities and environments

Spain 2019-11-01

multiple green transformations are required if humanity is to live sustainably on planet earth recalling past transformations this book examines what makes the current challenge different and especially urgent it examines how green transformations must take place in the context of the particular moments of capitalist development and in relation to particular alliances the role of the state is emphasised both in terms of the type of incentives required to make green transformations politically feasible and the way states must take a developmental role in financing innovation and technology for green transformations the book also highlights the role of citizens as innovators entrepreneurs green consumers and members of social movements green

transformations must be both top down involving elite alliances between states and business but also bottom up pushed by grassroots innovators and entrepreneurs and part of wider mobilisations among civil society the chapters in the book draw on international examples to emphasise how contexts matter in shaping pathways to sustainability written by experts in the field this book will be of great interest to researchers and students in environmental studies international relations political science development studies geography and anthropology as well as policymakers and practitioners concerned with sustainability

Handbook of Research on Digital Content Management and Development in Modern Libraries 2015-01-09

in this issue of primary care clinics in office practice guest editor dr david o gurek brings his considerable expertise to the topic of chronic pain management top experts in the field cover this timely topic in depth including non pharmacologic and rehabilitative strategies to address chronic pain and management of chronic pain in patients with substance use disorder contains 12 practice oriented topics including comprehensive evaluation for chronic pain pharmacologic management of chronic pain trauma and behavioral health care for patients with chronic pain the use of medical marijuana for chronic pain ethical challenges in chronic pain management and more provides in depth clinical reviews on chronic pain management offering actionable insights for clinical practice presents the latest information on this timely focused topic under the leadership of experienced editors in the field authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews

The Politics of Green Transformations 2022-09-27

this book investigates long term development issues for members of the association of southeast asian nations asean it finds that with the proper policy mix including domestic structural reforms and bold initiatives for regional integration asean has the potential to reach by 2030 the average quality of life enjoyed today in advanced economies and to fulfill its aspirations to become a resilient inclusive competitive and harmonious rich region key challenges moving forward are to enhance macroeconomic and financial stability support equitable growth promote competitiveness and innovation and protect the environment overcoming these challenges to build a truly borderless economic region implies eliminating remaining barriers to the flow of goods services and production factors strengthening competitiveness and the institutional framework and updating some governing principles but asean should not merely copy the european union it must maintain its flexibility and pragmatism without creating a bloated regional bureaucracy the study s main message is that through closer integration asean can form a partnership for achieving shared prosperity in the region and around the globe

Chronic Pain Management, An Issue of Primary Care: Clinics in Office Practice, E-Book 2016-03-08

the future of capitalism after the financial crisis the varieties of capitalism debate in the age of austerity contains thirteen world leading political economists writing from within eight different countries who critically analyze the current crisis tendencies of capitalism both globally and in particular countries given the likelihood of an increasingly crisis prone future for capitalism it is important not only to rethink capitalism in its current manifestations or varieties it is also important to rethink research methods and conceptual frameworks in preparation for understanding an increasingly rocky future in which capitalism itself could go the way of the many species that in the past were endangered only to become extinct more and more titles of books and articles are suggesting that capitalism or perhaps civilization

itself is endangered if we do not make radical changes in the near future this book breaks with academic path dependency and attempts to open new vistas of political economy and of multidisciplinary analysis that are crucially important if our thought processes are to be effective in a world in jeopardy the varieties of capitalism voc debate itself came into being as the soviet union unraveled it drew in scholarship from a cross section of marxian and heterodox political economy the key argument of voc was that if capitalism was the only global option then those on the left must get involved in policy discussions on how capitalist economies can be fashioned to become competitive as well as progressive however the financial crisis has seen policy across the advanced economies veer toward competitiveness coupled with austerity the lesson for the left is that alternatives to capitalism must be sought in the here and now

ASEAN 2030 1972

since the adoption of the rome statute of the international criminal court in 1998 international criminal law has rapidly grown in importance this third volume offers a comprehensive analysis of the procedures and implementation of international law by international criminal tribunals and the international criminal court through analysis of the framework of international criminal procedure the author considers each stage in the process of proceedings before the icc including the role of legal participants the scope of jurisdiction and the enforcement of sentences

Monthly Wholesale Trade Report 1972

fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses in recent years human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments nevertheless despite the prominence of fact finding it remains strikingly under studied and under theorized too little has been done to bring forth the assumptions methodologies and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny the transformation of human rights fact finding offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens it deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field the contributions to this book are the result of a major international conference organized by new york university law school s center for human rights and global justice engaging the expertise and experience of the editors and contributing authors it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law international relations and critical theory this book addresses the major areas of human rights fact finding such as victim and witness issues fact finding for advocacy enforcement and litigation the role of interdisciplinary expertise and methodologies crowd sourcing social media and big data and international guidelines for fact finding

Current Statistical Service 2014-12-17

from bank bailouts to austerity europe s and ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected the authors expose the class based nature of ireland s crisis resolution

The Future of Capitalism After the Financial Crisis **2016**

this book constitutes the refereed proceedings of the 20th european conference on genetic programming eurogp 2017 held in amsterdam the netherlands in april 2017 co located with the evo 2017 events evocop evomusart and evoapplications the 14 revised full papers presented together with 8 poster papers were carefully reviewed and selected from 32 submissions the wide range of topics in this volume reflects the current state of research in the field thus we see topics and applications including program synthesis genetic improvement grammatical representations self adaptation multi objective optimisation program semantics search landscapes mathematical programming games operations research networks evolvable hardware and program synthesis benchmarks

Treatise on International Criminal Law 2015-11-23

the purpose of this book is to narrate important dynamic events that have taken place in the indo u s relations beginning from 1943 to 2013 this includes the american role in india s independence the cold war demise of the soviet union resurgence of islamic fundamentalism terrorists attack of american cities in 2001 decline of american power rise of india and rise of china the study is confined to only three areas terrorism nuclear proliferation and nuclear energy the defining moment of the twenty first century occurred in 2008 when these two estranged great democracies engaged one another to work on common goals and establish a strategic relationship between two natural allies

The Transformation of Human Rights Fact-Finding **2015-07-07**

this book begins discussion at a point where many civil military conversations end hartwell identifies underlying dynamics key issues and challenges that civilian and military organizations encounter when negotiating their roles in real and virtual volatile environments these include managing expectations understanding organizational missions and cultures building trust and exploring different approaches to violence the impact of applied technologies on decision making processes and interventions is discussed in terms of recent and future complex crises linking earlier history to current discussions this study makes an important contribution by reframing issues and outlining strategies to avoid unintended consequences and more effectively protect civilians in future operations while geographic focus is on the middle east africa central asia and asia pacific the core issues are applicable to negotiating civil military relationships in a wide range of environments
