2014-07-30 the hellenistic royal families from alexander the great to the last cleopatra took part in dynastic in fighting that was vicious colourful and instructive in this they anticipated by centuries the better known excesses under roman potentates such as claudius and nero this new enhanced and revised edition of a major study explores the intricate quarrels and violence within the ruling hellenistic families a main theme is the role of amphimetric disputes competition between a ruler s offspring from different women and especially between the women themselves the book also includes a full exploration of the role of courtesans in the political and sexual intrigues of the hellenistic courts

Polygamy, Prostitutes and Death 2023-05-22 closing death s door explores innovative legal strategies to address the challenge of medical error in the united states today several hundred thousand patients die in hospitals each year because of errors in medical treatment the nation s third leading cause of death the legal mechanism designed to deal with this epidemic of injury and death is the medical

malpractice system it has failed to stem the tide of iatrogenic harm among the reasons are the costliness of the malpractice system its availability to only a minuscule percentage of those harmed and decades of tort reform efforts that have effectively extinguished the system for all but the most egregious claims in 1999 in to err is human the institute of medicine now the national academy of medicine sounded an alarm about the toll taken by medical error its proposed solution a set of reporting systems to document problems and generate data on which solutions might be based has been a failure the time has come for a fresh look at what the law might do to contribute to patient safety to begin a conversation about legal innovations designed to spur healthcare system improvements directed at reducing harmful medical errors this book explores a number of possible steps including well designed economic incentives to stimulate greater investment in safety promotion of systems approaches to safer delivery of care government regulation and surveillance in especially risky treatment contexts encouragement of a range of technological improvements especially involving information technology
