since most publishers of pamelas have preferred to print richardson s table of contents from the sixth edition his complete introduction his preface together with letters to the editor and comments is missing even from some of our best collections occasionally one finds the preface and the first two letters but only four publishers since richardson have attempted to reprint the full introduction harrison london 1785 who omits the first letter and cooke london 1802 3 both follow richardson s eighth edition ballantyne edinburgh 1824 uses the fourth the shakespeare head oxford 1929 the third and even these printings leave one dissatisfied the shakespeare head gives the fullest text but naturally omits richardson s revisions cooke gives the introduction in its final form but one misses the full text which accompanied the book in its heyday and rarely are both cooke and shakespeare head to be found in the same library

A Treatise on Differential Equations 1877

in his lectures on the philosophy of religion hegel treats the religions of the world under the rubric the determinate religion this is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do in hegel s interpretation of the religions of the world jon stewart argues that hegel s rich analyses of buddhism hinduism zoroastrianism judaism egyptian and greek polytheism and the roman religion are not simply irrelevant historical material as is often thought instead they play a central role in hegel s argument for what he regards as the truth of christianity hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history these conceptions might at first glance appear random and chaotic but there is hegel claims a discernible logic in them simultaneously a theory of mythology history and philosophical anthropology hegel s account of the world religions goes far beyond the field of philosophy of religion the controversial issues surrounding his treatment of the non european religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century
